

# ChE Division Activities

## ASEE Annual Conference

When—June 20-24, 1993

Where—University of Illinois campus in Urbana-Champaign, Illinois

Since this is ASEE's centennial year, the overall topic of this year's meeting will be the history of engineering. With that theme in mind, the ChE division has organized three sessions pertaining to our history: a lecture on the history of chemical engineering education; a display of textbooks used throughout our history; and a poster session on histories of chemical engineering departments at the

various universities. Other sessions will deal with new developments in education and research, such as new environmental courses and curricula, high-performance computing, new courses not traditionally taught in chemical engineering, new chemical engineering research areas, and new partnerships with industry in chemical engineering. The program promises to be interesting and entertaining.

### SCHEDULE

1213	Monday 8:30-10:15	Lecture	The History of Chemical Engineering Education Donald Dahlstrom, University of Utah <i>Moderator:</i> James E. Stice, University of Texas-Austin
1413	Monday 12:30-2:00	Lunch	Chemical Engineering Chairpersons' Luncheon <i>Moderator:</i> Richard Alkire, University of Illinois
1613	Monday 4:30-6:00	Tutorial	Environmental Engineering Courses and Curricula <i>Moderator:</i> Gary K. Patterson, University of Missouri-Rolla
2213	Tuesday 8:30-10:15	Papers	High Performance Computing in Chemical Engineering <i>Moderator:</i> Mark A. Stadtherr, University of Illinois
2413	Tuesday 12:30-2:00	Lunch	Chemical Engineering Executive Committee Meeting <i>Moderator:</i> John Friedly, University of Rochester
2513	Tuesday 2:30-4:15	Poster	Histories of Chemical Engineering Departments <i>Moderators:</i> Ron Larsen, Montana State University Susan Montgomery, University of Michigan
2613	Tuesday 4:30-6:00	Papers	New Courses not Traditionally Taught in Chemical Engineering <i>Moderators:</i> J. L. Zakin, The Ohio State University L. S. Fan, The Ohio State University
2713	Tuesday 6:30-?	Dinner	Chemical Engineering Division Banquet and Division Lecture <i>Moderator:</i> John Friedly, University of Rochester
3213	Wednesday 8:30-10:15	Papers	New Chemical Engineering Research Areas <i>Moderator:</i> Thomas Marrero, University of Missouri-Columbia
3413	Wednesday 12:30-2:00	Lunch	Chemical Engineering Division Luncheon, General Business Meeting <i>Moderator:</i> John Friedly, University of Rochester
3513	Wednesday 2:30-4:15	Poster	Textbooks in the History of Chemical Engineering <i>Moderators:</i> Melanie McNeil, San Jose State University Polly R. Piergiiovanni, Lafayette College
3613	Wednesday 4:30-6:00	Papers	New Partnerships with Industry in Chemical Engineering Research <i>Moderator:</i> Neil Book, University of Missouri-Rolla
4213	Thursday 8:30-10:15	Tour	Tour of Research Facilities <i>Leader:</i> To be announced
