

Publications from AIChE

Chemical Engineering Progress

Monthly

Attilio Bisio, Editor

Redesigned in 1986, Chemical Engineering Progress has expanded its coverage of the latest advances and trends in the chemical process and related industries.

The new *Profiles* feature provides a close look at companies and individuals who have a major impact on the industry. *Catalysts* reports news that affects day-to-day functions as well as profitable and efficient operation of plants and facilities. *Opinion & Comments* offers a forum for the exchange of ideas. New sections provide information on plant expansions, new companies and acquisitions.

Chemical Engineering Progress continues to provide information on new products and materials, regulatory issues, employment opportunities, publications, Institute news, meetings and conferences sponsored by AIChE and other societies.

1987 Subscription Price: \$40

Foreign Extra: \$11

(All AIChE Dues Paying Members Receive Chemical Engineering Progress as part of their membership)

AIChE Journal

Monthly

Morton M. Denn, Editor

Provides a comprehensive coverage of ongoing research and developing technologies in chemical engineering, environmental engineering and biotechnological engineering. Original papers are reviewed by a board of peer scientists and engineers. Contributors come from industry, government and university research groups in the U.S. and throughout the world.

1987 Subscription Price: AIChE Members \$40 Others \$275
Foreign Extra: \$13

International Chemical Engineering

Quarterly

Renate U. Churchill, Editor

Presents English language translations of important papers originally appearing in distinguished foreign periodicals such as:

Chemie-Ingenieur-Technik (Federal Republic of Germany)	Chimia (Switzerland)
Magyar Kémikusok Lapja (Hungary)	Kagaku Kogaku Ronbunshu (Japan)
Inzyniera Chemiczna i Proce- sowa (Poland)	Chemický Průmysl (Czecho- slovakia)
Huagong Xuebao (People's Republic of China)	Khimicheskaya Tekhnologiya (USSR)
Chemische Technik (Demo- cratic Republic of Ger- many)	Revista de Chimie (Romania)
Hwahak Konghak (Korea)	Entropie (France)

as well as from other publications from these and other countries.

1987 Subscription Price: AIChE Members \$30 Others \$275
Foreign Extra: \$6

Energy Progress

Quarterly

Carl Sutton, Editor

Concentrates on practical applications in the search for more efficient and cost-effective uses of new and existing energy sources. Material includes ongoing research in coal, shale oil, synthetic, nuclear, wind, solar and geothermal energy.

1987 Subscription Price: AIChE Members \$16 Others \$50
Foreign Extra: \$6

Dues paying AIChE members who subscribe to this quarterly automatically become members of the Fuels and Petrochemicals Division. Those who have already joined the division will automatically receive Energy Progress.

Environmental Progress

Quarterly

Gary F. Bennett, Editor

Covers all aspects of pollution control including air, water, solid and liquid wastes. Papers and articles report advances of vital interest to the chemical and environmental engineer as well as to the chemical industry as a whole.

1987 Subscription Price: AIChE Members \$16 Others \$50
Foreign Extra: \$6

Dues paying AIChE members who subscribe to this quarterly automatically become members of the Environmental Division. Those who have already joined the division will automatically receive Environmental Progress.

Biotechnology Progress™

Quarterly

Michael Shuler, Editor

Reports developments and research results impacting the food, pharmaceutical, bioengineering and allied fields. Provides engineers and technicians with information on the progress and innovative developments in this dynamic and increasingly important area of engineering.

1987 Subscription Price: AIChE Members \$14 Others \$50
Foreign Extra: \$6

Dues paying AIChE members who subscribe to this quarterly automatically become members of the Food, Pharmaceutical and Bioengineering Division. Those who have already joined the division will automatically receive Biotechnology Progress™.

Plant/Operations Progress

Quarterly

T.A. Ventrone, Editor

Concentrates on the design, operation and maintenance of safe installations. Technical papers and reports also present new techniques and advances in the promotion of loss prevention and efficient plant operation.

1987 Subscription Price: AIChE Members \$16 Others \$50
Foreign Extra: \$6

Dues paying AIChE members who subscribe to this quarterly automatically become members of the Safety and Health Division. Those who have already joined the division will automatically receive Plant/Operations Progress.

Subscriptions are on a calendar year basis

SEND SUBSCRIPTIONS to: AIChE Subscriptions Dept. C, 345 East 47 Street New York NY 10017.
