

Chemical Engineering – A new range of 'hands-on' teaching equipment

Yesterday, laboratory teaching rigs had to be large, expensive and difficult to set up. Today, smaller scale, easy-to-use, self-contained cheaper apparatus is available *with* greater educational value.

Technovate offers a full range:

- Mass Transfer ● Reaction Engineering ● Unit Operations

Ask us for more details of our equipment

- CEK Liquid Mixing*
- CEL Fixed & Fluidised Beds*
- CEM Liquid Phase Chemical Stirred Tank Reactor*
- CEN Solids Handling Bench*
- CEP Dynamics of Stirred Tanks*
- CERa Gaseous Diffusion*
- CERb Liquid Diffusion*
- CES Wetted Wall Column*

- CET Tubular Reactor*
- CEV Multi-stage Mixer/Settler*
- UOP1 Climbing Film Evaporator*
- UOP2 Double Effect Evaporator*
- UOP4 Solid-Liquid Extraction*
- UOP5 Liquid-Liquid Extraction*
- UOP7 Gas Absorption Column*
- UOP8 Tray Drier*

* Write also for our full range in Fluid Mechanics and Heat Transfer
