

WHAT?

WORK FOR EXXON?

Many young graduates who joined Exxon straight out of college are still positive today they made the right choice. And so are we.

We recognize that the right choice depends upon the best possible match between an employer and your individual personal and career goals.

What do we have to offer? An opportunity to work with people who are leaders in their field — planning and doing meaningful things in the world's work . . . career assignments of un-

rivaled variety . . . an opportunity to develop your talents and make a contribution . . . to change career directions if you wish . . . a company that encourages, recognizes and rewards your achievements — both in terms of pride and pay . . . and above all, a lifetime career with a growing company.

If this sounds like your personal checklist for a company, perhaps there's a match — contact your college placement office or send your resume to Exxon, Professional Recruitment, P. O. Box 2180, Houston, Texas 77001.

EXXON

Equal Opportunity Employer, M/F
