

Career Opportunities in Engineering, Design, Research, and Construction

For more than 65 years C F Braun & Co has been involved in worldwide engineering and construction. We have designed and built hundreds of facilities for the chemical, petroleum, ore processing, and power industries. Today we are also actively engaged in the newer fields of nuclear energy and coal gasification.

Our rapid growth has opened up many career positions. Challenging assignments and opportunities for professional growth are available at Braun in an environment designed for creative engineering.

Positions are available at our engineering headquarters in Alhambra, California and at our eastern engineering center in Murray Hill, New Jersey. For further information write to C F Braun & Co, Department K, Alhambra, California 91802, or Murray Hill, New Jersey 07974.
