

We're looking for people who are looking for the good life.

The good life involves a lot of the things we've always taken for granted. Like the availability of enough food to feed an ever-growing population. A cure for disease. Thick forests. A clean environment. And the time to relax and enjoy it all. Except now we're going to have to stop looking at life through a tunnel and find ways to protect all forms of it—from our homes to the farthest corner of the earth. Because life is fragile. And its protection is a major concern at Dow. So we're looking for people with scientific, engineering, manufacturing and marketing backgrounds who'll direct their precious talents, enthusiasm and ideas to the development of Dow products and systems for the good life. And we'll provide a dignified, motivational environment to work and grow. If you or someone you know loves life and wants to live it wisely, get in touch with us. Recruiting and College Relations, P.O. Box 1713E, Midland, Michigan 48640.
