

WE ENCOURAGE JOB HOPPING.

In fact at Sun Oil we've just adopted a new system that promotes it. • Internal Placement System.

• Here's how it works. Say you're in Production and you decide to take a crack at Marketing. Next opening in Marketing we'll tell you. You can apply and be considered. First. You have freedom to experiment and move around at Sun. You learn more and you learn faster.

• Why do we encourage job hopping? Because we happen to believe our most valuable corporate assets are our people. The more our people know, the stronger we are. • Now—you want to know more? Ask your Placement Director when a Sun Oil recruiter will be on campus. Or write for a copy of our Career Guide. SUN OIL COMPANY, Human Resources Dept. CED. 1608 Walnut Street, Philadelphia, Pa. 19103.
