

Summer Program on Modeling and Optimization

Sir:

A special summer program will be held July 29 through August 7, 1974 on the topic "New Developments in Modeling, Simulation and Optimization of Chemical Processes" at Massachusetts Institute of Technology.

This special summer program will present basic principles necessary to understand and apply new techniques for computer-aided design and control of industrial-scale chemical processes. Topics to be covered include steady-state process simulation, process optimization, dynamic modeling and simulation of chemical processes, computer-aided process synthesis, and comprehensive problem-oriented computing systems for chemical process design. Participants will use M.I.T. computing facilities for solution of case-study problems. Please contact:

Director of the Summer Session

M. I. T., Room E19-356

Cambridge, Massachusetts 02139.

COMPUTER
PROBLEMS**

CHEMICAL ENGINEERING EDUCATION, in cooperation with the CACHE (Computer Aides to Chemical Engineering Education) committee, is initiating the publication of proven computer-based homework problems as a regular feature of this journal.

Instructions for submission of problems precede the first of these articles which appears on page 90 of this issue.

***Parsons is a Good Place to Work!***

There is no limit to the opportunities offered by Parsons—high salaries, good benefits, advancement, professional freedom—and a work environment unequalled anywhere.

Parsons is expanding its operations. Our new world headquarters will be completed in the summer of 1974. This \$20 million, 400,000 square-foot facility was designed specifically for our business. It is located in a suburban area near the Rose Bowl in Pasadena, California, close to some of the country's famous universities in case you want to further your academic career—with Parsons' tuition aid plan.

Parsons is one of the leaders in the engineering design and construction of petroleum refineries, metallurgical plants and chemical plants. We have prepared a booklet describing the advantages of working for Parsons—for your copy of "Parsons is a Good Place to Work," write to Personnel Manager,
