

At Stauffer all systems are grow. You're in on it

immediately!

If you come with us, you wade right into your work. You get more out of it. So do we. We give our bright young people their heads. Because the faster they grow, the faster we grow. And that's exactly what Stauffer is doing. Growing. In plastics, manufacturing chemicals, specialty chemicals and agricultural proprietaries.

We're a medium-sized company, with vigor. Not so big you get lost, but big enough to offer plenty of room for movement.

If you have a BS, or more, in Chemical Engineering, Mechanical Engineering, Chemistry or Accounting, give Stauffer a good hard look. You can find a springboard for your talents—in production, engineering, research, or technical sales. A career that will mean a lot to you, and many others.

See our representative when he visits your campus. Or write directly to Coordinator of College Recruiting, Stauffer Chemical Company, 299 Park Avenue, New York, NY 10017.

Grow with Stauffer, a Company with a social conscience as well as a profit motive.
An equal opportunity employer
