HELP !!

With this issue the staff at the University of Florida begins its third year of publishing CEE. We are certainly pleased with the overwhelming and enthusiastic response of our readers; we are equally pleased that we have received during the past year the support of eight donors, 21 industrial advertisers, and 39 university advertisers. In addition we received donations from nearly 100 departments of chemical engineering.

So far this year however, our commitments for income from donations and advertising are only 50% that of last year. Also while 92 departments have placed orders for bulk subscriptions to CEE, over 50 chemical engineering departments listed in Chemical Engineering Faculties have not yet sent in any contributions for 1970. We are therefore asking your help in the following: 1) If your department is not listed below, you might want to make sure that it continues to receive CEE. 2) If you read and enjoy CEE, you can help us by telling our advertisers and donors and letting them know that their support is recognized and appreciated. With your help we hope we can continue to serve you and the profession in the publication of a journal that all seem to agree is greatly needed.

James H. Weber, Chairman
Publication Board

R. B. Bennett,
Business Manager
