

**CHEMICAL
ENGINEERS**

AT TEXACO

YOU MAKE

IT GO

From a trip to the country . . . to an expedition into outer space . . . Texaco is there. Our petroleum and petrochemical products play an important part in moving this country to greater heights. But, it's people like yourself who really make it go . . . aggressive and imaginative Chemical Engineers constantly searching

for a better way. It's through your efforts that our research and development centers have made such great strides in new processes and product development. And, this is just the beginning . . . as a Chemical Engineer at Texaco there's no telling how far you'll go. Our laboratories in Beacon, N.Y., Richmond, Va., and Port Arthur and Bellaire, Texas, have openings for U.S. citizens who have B.S. or M.S. degrees. Send your resume to Mr. R. A. Beck, Texaco, Research & Technical Department, P.O. Box 509, Beacon, New York 12508.

Texaco is an equal opportunity employer.
