

Chemical Engineers...

Analyze A Career With The Number One Opportunity Company

As your students consider their futures, suggest that they consider joining Procter & Gamble, where there are outstanding research and product development openings for BS, MS and Ph.D. Chemical Engineers. No other company can beat P&G's overall opportunity:

- Immediate, meaningful responsibility with thorough, customized on-the-job training and continuing education opportunities.
- Association with top technologists who know employee development is one of their major responsibilities.
- Promotion only from within based on the results achieved.
- Highly competitive salaries and benefits among the very top in all of U.S. industry.
- A heavy financial commitment to support our work. This year P&G will spend over \$780 million in research and product development, among the largest R&PD programs in all U.S. industry.
- Wide recognition of P&G's superiority by industry surveys: Fortune "Most Admired U.S. Corporations;" Forbes "Most Innovative Consumer Products Company;" Computerworld "Ten Best Places To Work;" Money "Big Companies With Best Employee Benefits;" Black Enterprise "50 Best Places For Blacks To Work;" Savvy "Best Corporation For Success..."
- Involvement across a wide range of product categories, including beauty care, food and beverage, health care, laundry and cleaning and paper products.
- The challenge to participate in the progress of technological innovations that have produced more than 15,000 patents currently in force worldwide and nearly 120 of the world's top consumer products.
- U.S. technical centers in Baltimore, MD; Cincinnati, OH; Memphis, TN; Norwich, NY; and Shelton, CT; and over 20 technical facilities in other major countries.
