

The people behind these products still remember looking for their first job.

They were people who wanted a good job with a good company. A chance to show what they could do. And to be recognized for doing it.

They were people like you.

The products they researched, produced and marketed have already touched every part of your life. Food wrapping, herbicides, antifreeze, medicine, packing material, home insulation, paper, photographic chemicals, fertilizers, and carpet backing, just to name a few.

The careers they took with Dow gave them a chance to do something. To take responsibility. To set their own goals and plan their own schedules. And evaluate the results.

It's an environment for people to develop themselves. And to develop the 2,200 products and services we offer.

We need more people like that. Help us get in touch with them. Because if you know one of the people we're looking for, we've

probably got the job he—or she—is looking for.

If you know of qualified graduates in engineering or the sciences, or with an interest in marketing, finance or computer science, we hope you will encourage them to write us:

Recruiting and College Relations, P.O. Box 1713-CE, Midland, Michigan 48640. Dow is an equal opportunity employer—male/female.
