

CHEMICAL ENGINEERS

Explore Philip Morris U.S.A.

A high technology development and process manufacturing company

The technology that is required to produce such well-known tobacco products as Marlboro, Merit, Benson & Hedges and Virginia Slims ranks among the most sophisticated to be found in industry. Advanced process control systems, process development, state-of-the-art drying and blending operations and environmental controls are vital functions that play a major role in our growth.

To the Chemical Engineer who wants to contribute, be recognized and rewarded, Philip Morris U.S.A. is a company you should explore. You can find out more about us by sending a letter or resume, or complete the back side of this page.
