

# energy

The energy to keep straining toward your chosen goal — and even as you attain it, look forward to the ones beyond.

The energy to explore, evaluate, create, bring needed changes.

Energy to burn, figuratively — that wealth possessed by the young, in mind no less than body.

Energy to burn, literally, because ideas — freedom, equality, well-being, conservation of our natural environment — must be turned into realities — food, shelter, warmth, access, economic independence and the physical means to accomplish our goals.

Atlantic Richfield is an energy company — in all these ways. One of the nation's thirty leading industrial corporations, and one of the ten companies producing most of our energy needs. A company that is forward-looking in management. Imaginative in organization and operation. Open to fresh thinking. Responsible in outlook.

While our specific requirements continually change, we typically offer opportunities to financial and systems analysts, accountants, auditors, engineers, geologists, geophysicists, sales representatives, agronomists and programmers.

We invite your interest. See our representative on campus or your Placement Director.

**AtlanticRichfieldCompany** 

An equal opportunity employer M/F.
