

Farm Business Start-Up Checklist and Resource Guide for Northeast Florida¹

Kevin Athearn and Jennifer Johns²

Introduction

This document lists steps for starting a farm business in northeast Florida, along with resources and contact information to assist with completing each step. The checklist is a concise guide for new farmers to navigate business start-up, including developing a business plan, securing land, obtaining financing, and complying with legal requirements. Although many of the steps in the checklist apply to farms in any location, other steps and requirements are specific to the state, county, or municipality where the farm is located. The United States Department of Agriculture (USDA) provides a new farmers website (<https://newfarmers.usda.gov/>) and a checklist for new farms (https://newfarmers.usda.gov/sites/default/files/checklist_3.pdf) that are broadly applicable. The Florida Direct Marketing Handbook (Treadwell et al. 2018) is a printed guide that provides detailed information for small farm businesses and direct marketing in Florida. This document summarizes start-up steps and identifies resources and contact information specific to northeast Florida.

Listed resources are available on the Internet. Electronic links are embedded in each resource listed, and URLs are provided in the References section. These resources are intended as a sample of materials that may be helpful. The University of Florida Institute of Food and Agricultural Sciences (UF/IFAS) has not reviewed all listed resources for accuracy or completeness.

Telephone numbers are provided for several local contacts in northeast Florida. Table 1 lists county government telephone numbers. Table 2 lists USDA service center telephone numbers. Table 3 lists telephone numbers for UF/IFAS Extension, the Small Business Development Center, and Farm Credit offices in northeast Florida.

UF/IFAS Extension offers classes, workshops, and field days on various agricultural topics relevant for beginning farmers. Check your county Extension office website for upcoming events in your county. Other northeast and statewide events are listed on the UF/IFAS North Florida Research and Education Center—Suwannee Valley website (<http://svaec.ifas.ufl.edu/>), the Small Farms and Alternative

Land Access

A farm business requires secure access to land that is suitable for farming and that satisfies the requirements of the business plan. Steps to acquiring land may include identifying land requirements, considering different land tenure options, finding available land, assessing the suitability of a parcel, and preparing to secure land through lease, purchase, gift, or inheritance.

Financing & Insurance

A large capital investment may be needed to obtain land and equipment and establish a farm. Steps to financing a farm include assessing your financial position and needs, identifying financing options and funding sources, preparing materials for potential funders, considering insurance needs and options, and considering cost-share and other government farm programs.

Business Registration, Licenses, & Taxes

Like any business, a farm needs to choose a business structure, comply with state and federal laws regarding business registration and tax filing, and comply with local business requirements. Farm businesses may qualify for certain exemptions at the state, county, or city level.

Choose a business structure

Resources:

 - LLCs: File articles of organization with the Florida DOS [Florida Limited Liability Company](#) (FDOS)
 - Partnerships: Register partnership with the Florida DOS [Partnerships](#) (FDOS)
 - Register fictitious (doing business as) name with the Florida DOS if the business is a sole proprietorship and you will be using a name different than your personal name (or if other business structure using a name different from your entity's legal name). [Florida Fictitious Name Registration](#) (FDOS)
 - Register with the [Florida Department of Revenue Start-up Kit for New Business Owners](#) (FDOR)
 - Consider state sales tax exemptions [Agricultural Sales Tax Exemptions in Florida](#) (FFB)
- County or city**
 - Obtain any required business permits. Farms are exempt from obtaining a county/city business tax receipt or occupational license, according to [Florida Statute 205.064](#) (Florida Legislature). Contact individual counties to inquire about whether your business qualifies for that exemption or whether some

other type of business permit or license is needed (see Table 1).

- Apply for agricultural property tax classification with county property appraiser (see Table 1). Agricultural Property Tax Classification (FDACS)

Farm-Related Permits & Regulatory Compliance

Various laws, regulations, and permitting requirements apply to farm businesses. Several information resources on these legal issues are listed below.

- Check zoning restrictions with county or city zoning office** (see Table 1)
- Obtain water well permit and other environmental resource use permits**

Agencies:

- [Permitting, St. Johns River Water Management District](#) (SJRWMD)
- [Agricultural Cost Share Program & Permits](#) (SRWMD), 386-362-1001
- [Florida's Water Permitting Portal](#) (FDEP)
- [Office of Ag Water Policy](#) (FDACS), 850-617-1700
- Obtain building permits if applicable; check with your county or city government for permit requirements** (see Table 1).
- Review laws and regulations pertaining to agricultural workers, transportation, and farm safety**

Summary

This document outlines several steps involved with starting a farm business and lists resources to assist a beginning farmer in northeast Florida. It may not cover all steps or issues facing a business startup, especially if nonfarm business enterprises are involved. The reader is encouraged to seek additional information from a local Extension office, government agencies, nongovernmental organizations, financial advisors, and legal experts as needed.

Acknowledgments

The authors are grateful for funding support from a USDA Specialty Crop Block Grant awarded by the Florida Department of Agriculture and Consumer Services. The authors also would like to thank John Hall, Roger Ward, Mark Yarick, and two anonymous reviewers for reviewing a draft and for helpful suggestions that improved this document.
