Living with hurricanes is a common event for Florida’s residents. Researchers have found four major areas where homes commonly fail as a result of hurricane-force winds. Proper hurricane preparation takes action to strengthen these areas.

What Should Be Done to Prepare this House for a Hurricane? (Hint: Turn to the back for answers)
To learn more about these items, ask a County Cooperative Extension agent for the individual documents in this series.

What Can You Do to Prepare Yourself?

All families should have a disaster kit ready before a storm hits. Refresh your kit every 6 months. Here’s a checklist so you can be prepared whether you evacuate or stay home:

- Seven-day supply of food that does not need refrigeration or cooking.
- Seven-day supply of water (one gallon per person per day).
- Seven-day supply of clean clothes and shoes.
- Sleeping items (blankets, pillows, etc.).
- Toiletries (toothbrush, toothpaste, soap, deodorant, shampoo/conditioner, etc.).
- Cash (in case ATMs/banks are closed).
- First aid kit (including basic medicines and prescription drugs).
- Operable vehicle with a full gas tank.
- Radio (battery powered or wind-up).
- Flashlight (battery powered or wind-up).
- Spare batteries.
- Tools (for basic car and/or house repair).
- Important documents stored in a waterproof container (medical records, insurance records, Social Security cards, etc.).
- Pet care items (food, water, cage, leash, immunization record, etc.).
- Any other specialty items.
