Florida Fresh: Lettuce

Claudia Peñuela

Nutrition Facts

Florida's Lettuces are:

- ✔️ High in vitamin A (with the exception of crisphead lettuce). Vitamin A aids in normal vision, healthy skin, and protects against infections.
- ✔️ High in vitamin K which helps in proper bone growth and blood clotting.
- ✔️ A good source of vitamin C which helps to heal cuts and keeps teeth and gums healthy.
- ✔️ A good source of folate. Folate produces red blood cells and reduces a woman's risk of having a baby with certain brain or spinal cord birth defects.
- ✔️ Source of fiber. Fiber reduces the risk of heart disease.
- ✔️ Naturally free of fat and cholesterol, and low in calories and sodium.

Note: There are four types of lettuce: **romaine**, **butterhead**, **crisphead**, and **looseleaf**. Romaine lettuce has tall, tightly packed, darker green leaves, with the inner leaves in lighter hues. Butterhead lettuce has buttery texture and its leaves are not as tightly packed. Crisphead lettuce has pale green leaves forming a tight head. Looseleaf lettuce does not form a head; its leaves are joined at the stem.

Why Buy Locally?

The U.S. Department of Agriculture (USDA) estimates that the average farmers' market produce travels about **50 miles** to its destination, compared to **2,000 miles** for supermarket produce.

Buy locally and get these benefits:

- ✔️ Freshness and good nutrition. Fruits and vegetables harvested in their peak have better flavor and nutritional characteristics.
- ✔️ Social/cultural. Helps the community to be aware of the importance of agriculture.
- ✔️ Environmental. Protects natural resources such as green space, wildlife, water, air, and soil.
- ✔️ Economic. Promotes local labor force.

Select
✓ Crisphhead and romaine lettuces heavy for their size and that have crisp, tender leaves.
✓ Butterhead and looseleaf lettuces that have softer leaves.
✓ Bright color (dark to light green). The darker the green, the more antioxidants and nutrients.
✓ Mixed lettuces for more nutritional balance.
✓ Lettuces that do not have dry leaves.
✓ Lettuces with leaves that are not wilted, browned, and/or yellowed.

Sweet and Sour Leafy Green Salad

Yield: 4 Servings   Time: 10 minutes
Toss all ingredients in a large bowl.

*Nutrition info per serving (¼ recipe) Calories: 190 cal; Fat 1g; Sodium 310 mg; Carb 47g; Fiber 7g; Protein 4g; Vit A 130%; Vit C 110%; Calcium 10%; Iron 10% * Vitamin A, Vitamin C, Calcium and Iron listed as % of daily value based on 2,000 calories.
