Healthy Eating: Improve Nutrition with SNAP

Linda B. Bobroff

SNAP (the Supplemental Nutrition Assistance Program, formerly called Food Stamps) is one of several nutrition programs that can help people eat healthful diets. In Florida, there are about half a million older adults eligible for SNAP who do not receive them. If you think you may be eligible, please call the Elder Help Line (1-800-963-5337) today and ask for more information and help with applying. You can also get information about SNAP at http://www.fns.usda.gov/snap/faqs.htm.

Isn’t this ‘welfare’?
No! SNAP is a USDA nutrition program that helps people with limited resources have a healthy diet. Everyone deserves to have enough to eat and foods they enjoy.

How much can I get?
The average monthly benefit in 2010 was $141 per person, but even an extra few dollars each month can help. Figure 2 shows what about $18 can buy (cost of food varies quite a bit depending on where you live).

What is SNAP?
SNAP helps people with limited resources buy healthy foods. The U.S. Department of Agriculture (USDA) provides this program to eligible persons of all ages. SNAP provides eligible persons with an easy-to-use Benefit Security® Card, commonly called an EBT (Electronic Benefit Transfer) card. The EBT card is secure, and is widely accepted.
