

***Matthiola incana* Stock, Gillyflower¹**

Edward F. Gilman, Teresa Howe²

Introduction

Stock is an upright annual growing to about 18 inches tall with 1.5-inch-diameter flowers borne toward the top of the plant (Fig. 1). Stock is well adapted to planting in central Florida in late winter for a good flower display for about one month in late spring.

General Information

Scientific name: *Matthiola incana*

Pronunciation: math-EYE-oh-luh in-KAY-nuh

Common name(s): stock, gillyflower

Family: *Cruciferae*

Plant type: biennial; perennial; herbaceous

USDA hardiness zones: all zones (Fig. 2)

Planting month for zone 7: Jun; Jul

Planting month for zone 8: May; Jun

Planting month for zone 9: Apr; May; Nov; Dec

Figure 1. Stock

Planting month for zone 10 and 11: Feb; Mar; Nov; Dec

Origin: not native to North America

Uses: mass planting

Figure 2. Shaded area represents potential planting range.

Availability: grown in small quantities by a small number of nurseries

Description

Height: 1 to 2.5 feet

Spread: 1 to 2 feet

Plant habit: upright

Plant density: open

Growth rate: moderate

Texture: medium

Foliage

Leaf arrangement: alternate

Leaf type: simple

Leaf margin: undulate

Leaf shape: oblanceolate

Leaf venation: reticulate

Leaf type and persistence: deciduous

Leaf blade length: 4 to 8 inches

Leaf color: green

Fall color: not applicable

Fall characteristic: not applicable

Flower

Flower color: lavender; pink; red; white; yellow

Flower characteristic: summer flowering; fall flowering; pleasant fragrance

Fruit

Fruit shape: no fruit

Fruit length: no fruit

Fruit cover: no fruit

Fruit color: not applicable

Fruit characteristic: inconspicuous and not showy

Trunk and Branches

Trunk/bark/branches: not applicable

Current year stem/twig color: green

Current year stem/twig thickness: medium

Culture

Light requirement: plant grows in part shade/part sun

Soil tolerances: clay; loam; sand; acidic; slightly alkaline

Drought tolerance: moderate

Soil salt tolerances: unknown

Plant spacing: 12 to 18 inches

Other

Roots: not applicable

Winter interest: not applicable

Outstanding plant: not particularly outstanding

Invasive potential: not known to be invasive

Pest resistance: very sensitive to one or more pests or diseases which can affect plant health or aesthetics

Use and Management

Cultivars in the 'Harmony' series including 'Harmony Cherry Blossom' and 'Harmony Purple' are well suited for Florida.

Related species: *M. longipetala* var. *bicornis* (evening stock) is an unsightly annual that adds night time fragrance to the landscape.
