The research or creative activity conducted by the student generally takes diverse forms of directed research, such as independent study, work on an honors thesis or part of a larger ongoing study under the direct supervision of a full-time faculty member, rather than work conducted to fulfill regular course or seminar requirements.

Student And Faculty Eligibility:

- Any full-time, continuing, undergraduate student in good standing (academic and disciplinary) at Florida Atlantic University may apply.
- Students may receive more than one grant, with a maximum of one group grant and one individual grant per cycle.

Deadline Dates: October 15th for Spring/Summer funding, and March 15th for Summer/Fall funding. If these dates fall on a weekend or holiday, the deadline will be the following business day.
