

KELTHANE

Mite-free!

KELTHANE® MF is a Rohm and Haas specially compounded miticide that is death on *citrus-attacking* mites, both nymph and adult. In successful use throughout Florida, California and Texas, KELTHANE MF kills mites yet has no harmful effects on beneficial insects and mite predators when applied according to label instructions.

Give your citrus foliage full spray coverage as soon as mites appear and repeat as required. That's your best assurance of top yield and top quality. For full information see your dealer or write us today.
