Haplomyza minuta (Frost) 3/28, 5/11, a linear-blotch mine on Amaranthus
Liriomyza comenelinae Frost 1/3, 2/6,
2/12, 2/21. C. a linear miner on Com-
menelina elegans.
Liriomyza marginalis (Mall.) 11/9, 1/12
Liriomyza trifoli (Burgess) 3/4, 4/9, 4/11
*Melanagromyza caribbea Spencer 1/23
Paradise Key, Fla.
*Melanagromyza floridensis Spencer
11/9, 11/10, 11/20, 1/11
*Melanagromyza floridensis Spencer 1/9
Nemorimyza posticata (Meig.) 3/29, 4/7,
Large blotch mines on Baccharis halimifolia.
Phytomyza ilicicola Lw. 4/4, 4/5, 12/24,
small blotch mines on Ilex cassineae.
Phytomyza opaca Kulp. 4/3, linear
mines on Illex opaca.

HYMENOPTERA
Tenthredinidae
Metallus rhoweri (MacG.) 2/6, 2/8, 3/1,
3/2 also reared from blotch mines on
blackberry leaves.
Schizocerella pilicornis (Holmg.) reared
from blotch mines on leaves of purslane,
not blackberry as stated 1969
Braconidae
Agathis crassicornis (Muese.) 3/16, 3/25
Agathis spiracularis (Muese.) 1/4
Agathis texanus (Cress.) parasite of leaf
crempler Pachysandra thesauralis 11,
17, 12/5
Vespidae
Vespula maculifrons (Buy.) 11/7, 11/24 C
Scelidae (K. V. Krombein, SI)
Campsomis plumipes fossulana (Fab.)
1/28, 1/31, 2/1, 2/24, 3/10, 3/23
Pseudoscorpionida (W. B. Muchmore
UR)
Lamprocheres 3/16, an undescribed
species.
Paracheifer superbus Hoff. 3/4
Ocalachelifer cribatus Chamb.
Parachernes latimanus Banks 1/30, 3/2

ANNUAL MEETING

The Florida Entomological Society annual meeting will convene in
Gainesville, Florida, at 1:30 PM, Wednesday, September 3, and will adjourn at
noon, Friday, September 5. The Gainesville Hilton is the meeting site, and a
barbeque has been planned in lieu of the regular banquet. The bull session is
scheduled Wednesday evening.
