

# TACK TRAP for ADULT PECAN WEEVIL DETECTION

Patent Pending

**TACK-TRAP** is a viscous, sticky, tacky, colorless material. It has a slight odor of petroleum solvent, but in use, tests have proven it to be non-repellent. It contains no insecticides, fungicides, or other toxic materials.

TACK-TRAP PRICE LIST		
STOCK NO	SIZE	PRICE
1701	1 Pint	\$1.74 ea.
1702	1 Gallon	\$12.00 ea.
1703	5 Gallon	\$49.99 ea.
1704	55 Gallon	\$467.20 ea.

Prices quoted F.O.B. Buffalo, NY, or Griffin, GA.  
TERMS: 1%—10 days, 10 days

**A STICKY TREE BAND.** A band (approximately 12" wide) of sticky material, known commercially as TACK-TRAP, applied around the tree trunk will entangle and trap a number of weevils which crawl up the tree trunks. The effectiveness of sticky bands in trapping weevils crawling up the trunks of trees has been verified by Beckham and Dupree (1954), Hinrichs and Thomson (1955), and Nash and Thomas (1972). West and Shepard (1974) found higher numbers collected by TACK-TRAP than in burlap bands, Leggett cone traps and cone traps.

—Excerpt from Bulletin 208, Sampling of Adult Pecan Weevils, Mississippi State University.

## TACK TRAP THE MOST EFFECTIVE METHOD OF SAMPLING PECAN WEEVILS.

### WEATHERABILITY

TACK TRAP is not affected by rainfall. Coatings up to 1/32" in thickness may be heated

slowly to evaporate solvent (direct sunlight exposure) and are unaffected, even on vertical surfaces, by temperatures up to at least 170°F.

### APPLICATION

A short bristle, medium stiff, nylon paint brush is recommended. While application can be made to 40°F or lower, temperatures above 75°F are recommended. Insoluble in water.

### STICKY PANELS

Animal Repellents, Inc. can now apply TACK TRAP to your insect traps. Write us about your particular application problem and we will be glad to quote you prices.

• TACK TRAP SPECIFICATIONS •	
Weight/gallon	7.0 lbs.
Viscosity, Brookfield, Heliopath TC Spindle @ 2.5 RPM 75°F	150,000-300,000
Flash Point, TCC	94°F
Recommended application	1/16"—1/32"
Coverage: sq. in./pint	1000-2000
Coverage: sq. ft./gal.	50-100
