#### ABSTRACT

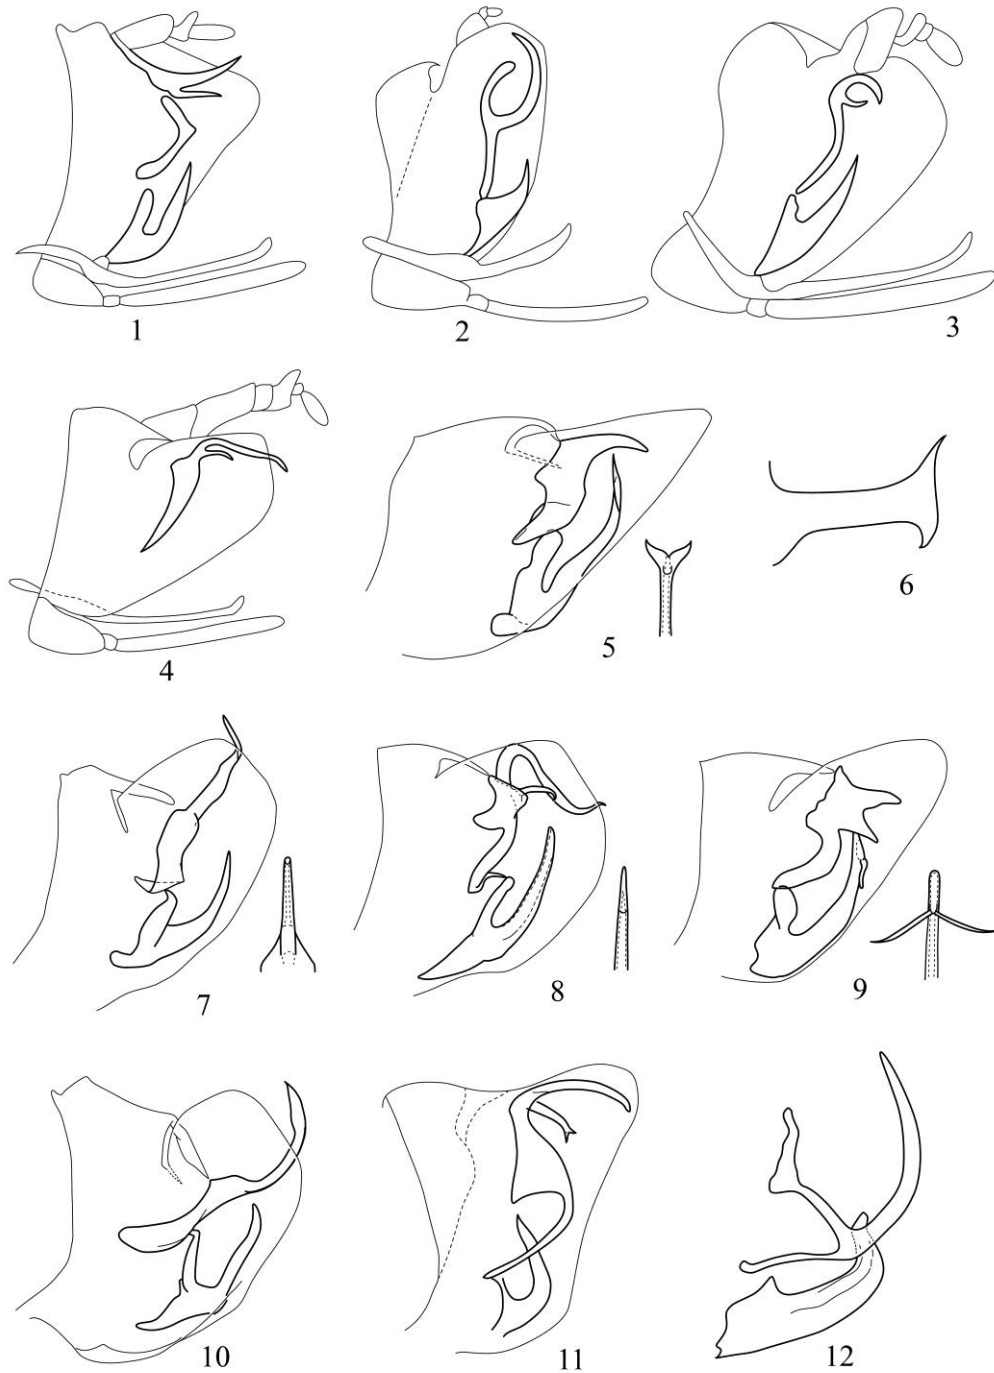

A new leafhopper species *Pediopsis ningxiaensis* Dai & Li **sp. nov.** from Ningxia Province of China is described and illustrated, an updated checklist of the genus *Pediopsis* from the world is provided, along with a key for identification to distinguish males of species of the genus in different geographic regions.

Key words: Auchenorrhyncha, taxonomy, distribution, China

#### RESUMEN

Una de las nuevas especies de saltahojas *Pediopsis ningxiaensis* Dai y Li **sp. nov.** de la provincia de Ningxia de China, se describe e ilustra, se proporciona una lista de comprobación actualizada del género *Pediopsis* del mundo, junto con una clave de identificación para distinguir las especies del género masculino en diferentes regiones geográficas.

Palabras Clave: Auchenorrhyncha, taxonomía, distribución, China

Figs. 1-12. Aedeagus and dorsal connective of *Pediopsis* species, lateral view and partly ventral view. 1. *P. eliptaminensis* (Evans); 2. *P. flavobrunnea* (Evans); 3. *P. completa* (Evans); 4. *P. kassamensis* (Evans); 5. *P. lutea* (Evans); 6. *P. emmae* (Evans); 7. *P. thymele* (Kirkaldy); 8. *P. manduræ* (Evans); 9. *P. nikitini* (Evans); 10. *P. tiliae* (Germar); 11. *P. cudraniae* Cai & Wang; 12. *P. malayana* Tishechkin. (1-4, 6. After Evans, 1971; 5, 7-10. After Hamilton, 1980; 11. After Cai et al., 2005; 12. After Tishechkin, 1997)

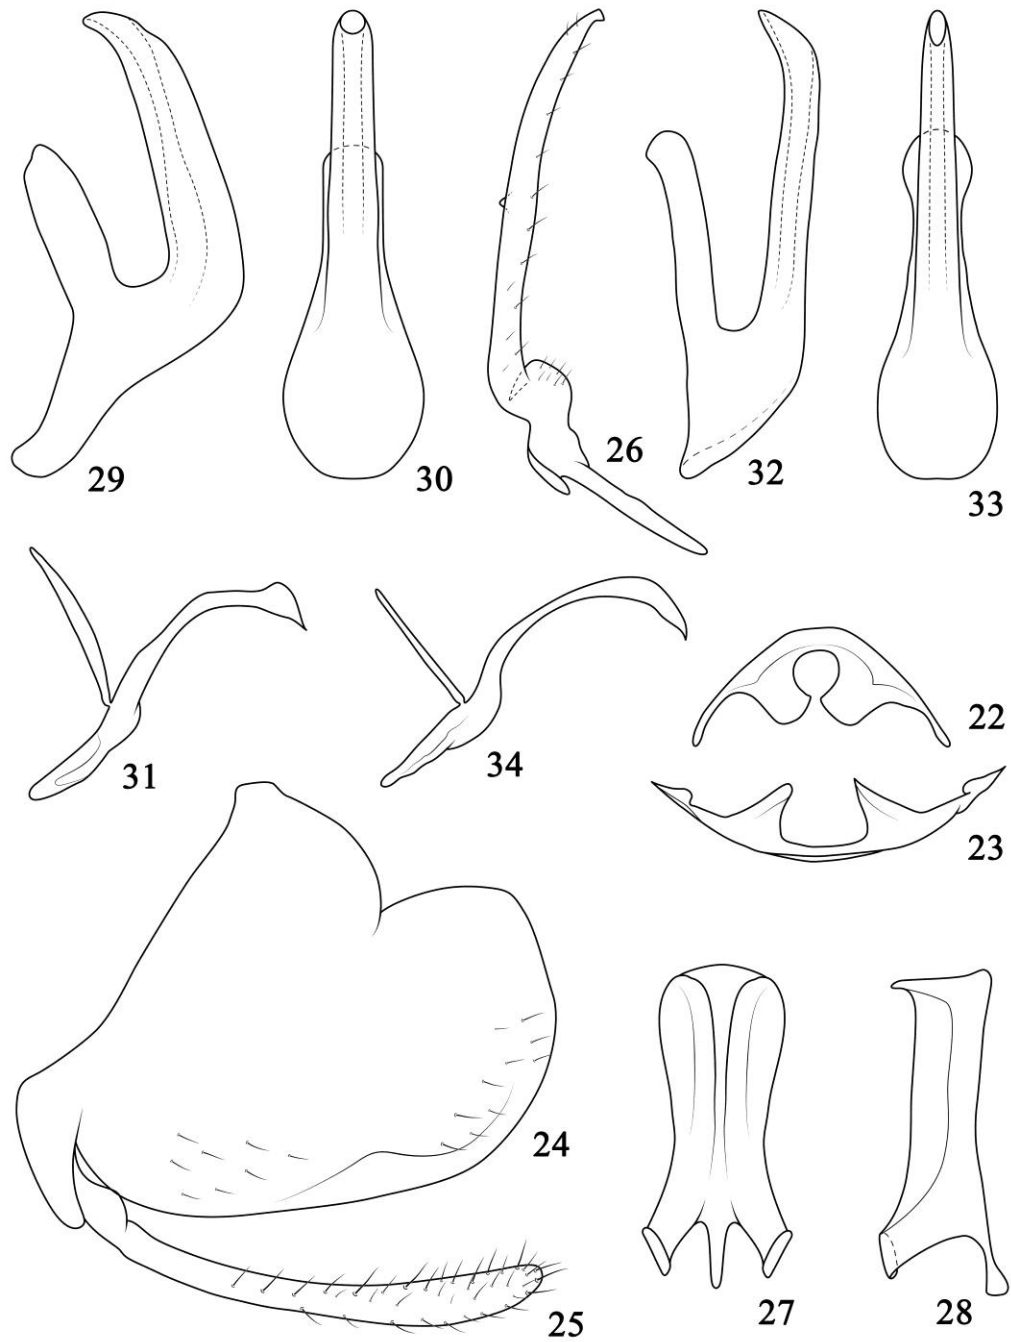

Figs. 13-21. Adults habitus of *Pediosis* species, dorsal, lateral and facial view. 13-15. *P.*

*femorata* Hamilton, female, (photos provided by R. L. Blinn, NCSU); 16-18. *P. ningxiaensis* **sp.**

**nov.**, male; 19-21. *P. kurentsovi* Anufriev. Note: This plate is shown in shown in color in Suppl.
