Apoanagyrus lopezi was discovered. The IITA mass reared and released it in Africa, where it continues to provide excellent control. Photo courtesy of CIAT

Follow a general format of introduction (no heading), Do not repeat words that appear in the title

ABSTRACT: Submit an abstract in English and resumen in Spanish, or resumo in Portuguese. The editor will obtain a translation. The abstract should be no longer than 150 words. ABSTRACTS WILL NOT BE INDEXED. If the abstract is not in the English language, the editor will do the translation. The effect of the absence of any translations will be a denial of publication.

TITLE PAGE: Place suggested running head (max. 60 characters or spaces, sentence case) on line 1 (left-justified); place name, address, e-mail address, and phone number of author designated to process revisions and review proofs on lines 2ff. (right-justified), and add name, address, and e-mail address of person who will process the invocations. In the title, include order and family of key organisms but omit authority for scientific names. After authors’ names, list authors’ affiliations with numbered footnotes.

REFERENCES CITED: Use metric measurements; express quantities as Arabic numerals except as the first word of a sentence or to avoid ambiguity.

TAXONOMIC MANUSCRIPTS must have an introduction. Taxonomic keys should use one of the following formats: If the key is short (8 couplets or fewer), use the style of Abrantes & Duarte (2013) FE 96(4): 1392–1400 (see page 1399). Note how each part of each couplet is indicated for example as 1.— and 1'.—. The symbols should be m dashes (not hyphens, not n dashes). If the key is long (9 couplets or more), use the style of Stotz & Miller (2001) FE 84(1): 691–699 (see pages 696–698). Pictorial keys as in Stotz & Miller (2001), see pages 85, 88–90, 92–94 are encouraged. Descriptions of new taxa should contain information that will distinguish them from related taxa including appropriate amendment of existing keys. Formulas of taxa may be telegraphic; use of gender symbols is acceptable except headings. Abbreviate collection dates with Roman numerals for months and Arabic numerals for days: 30–IV–2012.

CITATIONS IN TEXT: Use the name-date format: Jones (1986); (Jones 1986); Jones & Smith (1986); (Jones & Smith 1986); Jones (in press); (Jones AF, Dept. Zoology, Ohio State University, personal communication). Use “et al.” (not italicized) for 3 or more authors. Provide evidence of acceptance for works “in press,” otherwise cite as “unpublished” or “personal communication.” Provide an in-text citation from personal communications.

ACKNOWLEDGMENTS: Place disclaimers, journal series numbers, funding sources, address changes other than corresponsant, etc. here.

REFERENCES CITED: Include all source material cited in the manuscript. Provide all information that would allow retrieval of the original.

TABLES AND FIGURES: Submit all figures and photographs separately as high-resolution .tif files. All figures and tables must be referenced in the text with Arabic numerals of the original in which they appear in the text. Table footnotes are written below the table and indicated with superscript lowercase letters. All captions for figures are listed together on a separate page. All illustrations must be complete and final. Make a composite figure if multiple drawings or photographs are needed; do not combine drawings and photographs in the same figure.

SCIENTIFIC NOTES: Short contributions with a maximum text length of 1,500 words. Only 2 figures or tables or one of each are allowed. Submit a title page and text in legal scientific order without any headings except “Summary,” “References,” and “Acknowledgments.” The summary should be 1 to 3 sentences, abstract-like, and located at the end of the text.

CHARGES: US$93 per printed page (plus sales tax for Florida residents); this fee includes unrestricted electronic Web access. Reprints and color images are available; order forms with the current price schedule are sent with proofs.

ELECTRONIC REPRINTS: Internet publication of all articles is included in the page charges. Persons with access to the Web can read or make e-reprints (equivalent to high-quality photocopies) at any time and without charge.

INFOLINKS: For US$45, a hyperlink will be inserted in the online table of contents that accesses the full-text article (see http://www.flentoctoc.org/infolink.htm). This allows electronic posting of supplemental material and color images at low cost.

COLOR PUBLICATION: Authors may elect to (1) have printed color images at a cost of US$260 per page, which includes color in the electronic version; (2) have the black-and-white images of the printed document colorized for US$200 (for an abstract image in the electronic version; or (3) add any number of electronic color images and other supplemental materials in a supplementary document via the infolink process for a total of US$495.

PREPARATION OF MANUSCRIPTS: Authors who need assistance to prepare manuscripts for publication in Florida Entomological Society journals should hire a professional scientific editing service (several can be found at the following site: http://www.editor.com/Pubs/Public/Submit/editing_services)
