

GUIDELINES FOR SUBMISSION TO THE FLORIDA GEOGRAPHER

Manuscripts should be submitted as an MS-Word document, double-spaced, Times New Roman 12 font, tables and figures embedded in the text where the author would like to see them appear. Most manuscripts submitted to The Florida Geographer fall within the range of 5,000-10,000 words, however longer and shorter papers will be considered. The title and an abstract of up to 250 words should be found at the beginning of the document. There should be a separate MS-Word document for the title page including the author's names and affiliations. All submissions should be made via email to the editor (roldako@ju.edu).

Units of Measure

The Florida Geographer uses the International System of Units (SI).

Equations

Equations should be centered on their own line and numbered sequentially in parentheses on the right margin. All terms must be defined where they initially appear as follows: $P = 3.4Ad^{6.7} (1)$ where P is discharge (m³/s) and Ad is drainage area (km²).

Subheadings are also left justified and they must be short in length (maximum 6 words).

Notes

A limited number of informational notes may appear double-spaced on a separate page at the end of the text, before the References Cited section, and should be referenced in the text by superscripts (1 to N).

In creating your notes, do not use Microsoft Word tools such as Insert Footnotes, as these embed macros into your document that must be removed for publication.
