

GEOGRAPHY THESES AND DISSERTATIONS ON FLORIDA, 1970-75

The following is a list of masters' theses and doctoral dissertations related to Florida, taken from *The Professional Geographer*, Vol. 22 to Vol. 28 (1970 to 1976). They include works completed at Florida universities, as well as those on Florida done at other universities. There may be omissions; if readers find any titles which should be included, please send them to the editor for inclusion in a future *Florida Geographer*.

We hope to make this section an ongoing feature. Perhaps also this gathering of information on the geography of Florida could include published books and articles, and unpublished papers presented at meetings.

- Abbott, Elizabeth Morgan. "Karst Topography as an Influence on Land Use in West Central Florida." Ph.D., Univ. of Florida, 1972.
- Amelung, Evasusanne. "History of Economic Development of the Sanford, Florida Area." M.A., Univ. of Florida, 1971.
