

NECROLOGY

HENRY C. WHITESELL

Henry C. Whitesell, 60, died August 5, 1967, in Clearwater, Florida. Born in Clearwater, he was a Gold Star Pioneer of Pinellas County, where his grandfather and father were early citrus growers. After attending local schools he was graduated from Oglethorpe University. He was a member of Blue Key Honorary Fraternity.

A life long boating enthusiast, he was a Charter Member of the Clearwater Yacht Club and was active in the U.S. Coast Guard Reserve. At the start of World War II he entered active service with the Coast Guard and served in the Pacific as a Lieutenant until he was retired in January, 1946.

After his return from the service, Henry became interested in Pinellas County Agriculture, especially in youth work with 4-H Clubs and Future Farmers. This lead him into citrus production work and from 1950 until his retirement, he was Production Manager for Clearwater Growers Association. During these years he became recognized state-wide as an authority on citrus production. He was a member of the Florida State Horticultural Society from 1951, until his death, serving as Vice President of the Citrus Section in 1960. He was active in the Florida Citrus Production Managers Association, serving as its President for several years. He was a Director and Vice President of Soil Science Foundation.

Survivors are his wife, Gladys N.; Largo; two sons, Nelson, Largo; Joe, Gainesville; five grandchildren; a sister, Mrs. Elizabeth W. Davies, Largo.

JAMES M. WALTER

Dr. James M. Walter, a member of the Florida State Horticultural Society since 1947, died November 12, 1967 at Bradenton, Florida. He was 60 years of age.

Dr. Walter, a native of Harrodsburg, Ky., came to Bradenton from Morristown, N. J. 21 years ago, and was a plant pathologist at the Gulf Coast Experiment Station.

Dr. Walter held a B. S. degree from the University of Kentucky and M. S. and Ph.D. degree from the University of Minnesota. He was associated with the U. S. Department of Agriculture in the Division of Plant Industry for 14 years. In 1957 he received an award of recognition from the Florida Fruit and Vegetable Association for research activities with the development and release of the Manalucie tomato in 1953. He was author of various scientific articles in the area of agriculture, the latest being published in the Annual Review of Phytopathology, and received the 1966 Distinguished Service award from the Florida Seedsmen. In addition to a number of scientific societies, Dr. Walter was a member of Alpha Zeta, an honorary agricultural fraternity.

Dr. Walter published quite extensively in the *Proceedings* of the Society, his first article appearing in Volume 61 (1948).

Survivors include his wife, Mary L.; son, James M. Jr., Altamonte Springs; a daughter, Mrs. Robert L. Page, Monmouth, Maine; a sister, Mrs. William Ison, Burgin, Ky.; and 2 grandchildren, David N., and Douglas J. Walter, Altamonte Springs.

LOWELL WOODHAM

Lowell Woodham, director of the Florida Department of Agriculture's Inspection Division since 1963, died September 28, at University Hospital, Gainesville, Florida. He was 38 years old.

Mr. Woodham guided the Inspection Division in its dual role of protecting consumers against retail abuses and protecting industry against unfair competition. Also under his direction was the State Road Guard Service which performs general inspection activities relating to the movement of agricultural, horticultural, and livestock commodities.

A native of Hartford, Alabama, Mr. Woodham lived in Marianna and in Holmes County for many years. He served in the U. S. Air Force from 1946 to 1949.

Following his discharge from the Air Force, Mr. Woodham attended the University of Flor-

ida and was graduated with a Master of Science degree in 1955. He majored in agronomy, soils, and chemistry. Upon graduation, he joined the Florida Farm Bureau, served on its staff for five years, was employed by the Florida Department of Agriculture in 1960 as an administrative assistant. In 1961, he was named assistant director of the Inspection Division and assumed the directorate two years later.

A member of the Gamma Sigma Delta honorary fraternity, Mr. Woodham was immediate past president of the Southern Association of Food and Drug Officials. He was a Baptist and a member of the Florida Junior Chamber of Commerce, Young Democrats, Civitan Club, and Elks Club.

Survivors include his widow, Mrs. Laurita Harris Woodham, and three daughters, Lynn, age 14, and Linda and Lisa, age 7, all of Tallahassee; and five brothers and four sisters.

T. RALPH ROBINSON

T. Ralph Robinson, one of a dedicated team of government scientists who pioneered the introduction and breeding of new citrus varieties in Florida, died November 27, 1967, in the Grovemont Nursing Home in Bradenton, Florida, where he had been a patient since August 6 of this year.

Mr. Robinson was the last survivor of a team of scientists which was among the earliest of any group to experiment with cross-pollination in citrus to develop new varieties.

Included in the quartet of scientists besides Mr. Robinson were the late David Fairchild, Walter Swingle, and H. J. Webber.

Mr. Robinson, 90, was a native of Syracuse, New York, but moved to Terra Ceia, Florida, with his wife in 1924, where he set up his headquarters to continue the citrus breeding work.

In February 1964, the United States Department of Agriculture named an early maturing citrus hybrid (a cross between the Orlando tangelo and the Clementine tangerine) for Mr. Robinson. Since then, thousands of acres of the 'Robinson' tangerine have been planted by Florida citrus growers.

Mr. Robinson was an 1899 graduate of Syracuse University and went to work for the USDA in 1901. Here he became involved in plant physiology investigations until early 1910, at which time he became engaged as manager of citrus grove properties. In 1917, he returned to

work with breeding, selecting and commercializing the introduction of improved varieties of citrus and other subtropical fruits.

Although he had a long and illustrious career as a plant breeder and subtropical horticulturist, his most outstanding contribution to Florida Horticulture was the part he played in the development of Florida's tangelo industry.

Mr. Robinson formally retired in 1940, but even after that time he continued his work by collaborating with the United States Department of Agriculture.

Mr. Robinson was a member of the American Association for the Advancement of Science, the American Society for Horticultural Science, the Botanical Society of Washington, D. C., and Delta Kappa Epsilon Fraternity. He was also past president of the Florida State Horticultural Society and ex-director-at-large of the Florida Historical Society.

His name is listed with his biography in "American Men of Science" and also in "Who's Who." His biography also included about 80 titles of papers chiefly devoted to horticultural subjects.

Survivors include one niece, Mrs. Hazel C. Stroud of Terra Ceia, and two nephews, Richard D. Robinson of Skaneateles, New York, and Graham L. Guy of Rhodesia, South Africa.

ALBERT NELSON BROOKS

Dr. Albert Nelson Brooks, developer of the famous "Florida 90" strawberry died November 19, 1966.

Dr. Brooks was a native of College Hill, Ohio, and attended secondary schools in that state. Prior to receiving a Doctor of Philosophy degree from the University of Wisconsin in 1925, he had also attended the University of Cincinnati and Ohio State University. He was a Phi Beta Kappa and belonged to Sigma Xi and Gamma Alpha.

Dr. Brooks served in the U. S. Navy during World War I (1918-1919).

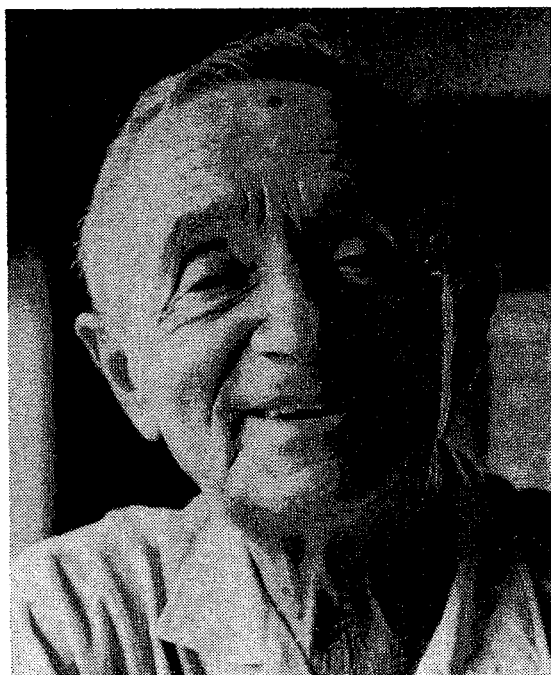

He was Plant Pathologist in Charge of the Strawberry Investigations Laboratory at Plant City, and had been with the Florida Agricultural Experiment Station since 1927. He was previously an instructor in Botany at the University of Cincinnati in 1922 and 1923, and Assistant Pathologist with the old Florida State Plant Board until 1927.

Dr. Brooks modestly took little credit for the part he played in putting East Hillsborough "on

the map," yet it is through his 27 years of research that bigger and redder strawberries appear each year on millions of dining tables throughout the nation. Breeding strawberries for resistance to prevalent diseases had been one of his most active projects.

The "Florida 90" strawberry, so named because it once was just a number in the station's book of hybrids, was developed in 1948 from a Missionary seed parent and an unknown pollen parent. Dr. Brooks explained that it was open pollinated from other experimental plants.

AUGUST BURRICHTER

Agriculture lost an eminent friend when August Burrichter died at Homestead, Florida, August 17, 1967, at age 75.

August was born January 9, 1892, at Ledde, Westfalia, in Germany. He grew up on the family farm, entering the Gymnasium at Osna-bruek (the humanistic secondary school) at age 12. At 19 he was employed by a Hamburg trading house and was later sent to its London branch. In World War I he was commissioned a Lieutenant in the German cavalry on the Eastern Front. In the latter part of the war, he served with units in France.

Following the Armistice, August entered the Agricultural University (Landwirtschaftliche Hochschule, Berlin). After his graduation, with a small group of associates he emigrated to Mexico in 1922, settling near Mexico City, and operated a large dairy farm until the middle Twenties. In 1926 he and his brother Willie moved to Clewiston. Their first crop of peppers and squash was a disaster first with floods and then frost. Salvaging what they could, they moved south to Homestead where they farmed on rented land on the East Glade. During summers from 1927 to 1934, he worked with the Ferry-Morse Seed Company as a plant breeder, making significant contributions to pepper and squash lines. He acquired land in Homestead and gathered a faithful crew of workers, most of whom remained in his employ throughout the years of growth and success of the farm.

As a commercial farmer, he was primarily interested in pole beans and potatoes, but throughout his life the farm was the hub of a great amount of experimental plant breeding and disease work by major seed companies and universities.

In 1940, August married. He and Osa had four fine children: Walter, August, Minna, and Metta.

August's great capabilities and realistic imagination were appreciated by all who knew him well. To those who addressed him as a "grower," he lifted a scolding finger, preferring to be known as a "farmer." August was a farmer in the simple and glorious meaning of the word, a very good farmer.

REPORT OF FLORIDA AGRICULTURAL COUNCIL

The Annual Meeting of the Florida Agricultural Council was held in Orlando, Florida on December 2, 1966 at the Florida Fruit and Vegetable Association offices. During this meeting the following officers were elected to serve for the year 1967:

President: J. Bryan Dye
Vice President: John Evans
Secretary-Treasurer: Jim Griffin

Directors: Francis Branon, Ed Finlayson, John Henry Logan, Ed Price, Dick Minton and Art Higbie

It was decided at the Annual Meeting to request of the FNGA that their executive secretary, Jim Griffin, be allowed to represent the Florida Agricultural Council during the forthcoming session of the State Legislature. Following this, approval was received from the FNGA president to allow Jim Griffin to represent the Council in Tallahassee. If I may digress just a minute, whenever any of you meet a FNGA member, shake his hand and thank him for allowing Jim Griffin to represent us in Tallahassee, for Jim did his usual outstanding job during the Session.

Chester Blakemore of the Florida Department of Agriculture outlined the Department's budget and program to be presented to the 1967 session of the Florida legislature. It was agreed by all present that the Florida Agricultural Council would support and work to see that the Department's budget was approved as presented.

The budget for the Institute of Food and Agricultural Sciences was explained in great detail by Dr. York and members of their staff. Even though we had a Republican Governor for the first time since reconstruction days, and an urban-oriented legislature, we felt that the modest budget request of the Institute of Food and Agricultural Sciences, which had been approved by the University and subsequently by the Board of Regents, would be approved by the Budget Commission; for it was certainly a very minimum requirement in relation to what is actually needed; not only to correct some salary inequities within the university system, but also to make Florida competitive with the other leading agricultural states.

The Budget Director, following Governor Kirk's directive, cut the \$0.5 million budget to 23.2, or a decrease of 6.7 million dollars. Of course, this applied to general revenue fund only. This is the budget which had been approved both by the University and the Board of Regents. Following this, the budget was approved by the Budget Commission. After Governor Kirk's budget message we realized that we had a hard up-hill fight on our hands to get approval of the Institute's budget.

During the session of the legislature Jim Griffin, the officers and members of the Council spent many hours contacting the various legislators trying to get the budget cuts restored. After all the facts had been presented to the members of the Cabinet and they had given careful consideration to the problem, six of the seven members of the Florida Cabinet asked the legislators to restore the cuts which they, acting as the Budget Commission, had originally made.

Three times during the session of the legislature bills were introduced to increase the Institute's budget by 1.7 million dollars, and all three times these bills were vetoed by action of Governor Kirk. In addition, a bill for 219,000 dollars was approved by the legislature to provide personnel and operating funds for the new research facilities at Apopka and Marianna. This bill was also vetoed by Governor Kirk. It is very probable that due to lack of funds, the new facilities at both Apopka and Marianna will stand idle.

During the past several years the salaries of Florida Agricultural scientists have slipped from a ranking of 14th to 38th. Just think about that. Also, Florida ranks 24th among the 50 states in support of agricultural extension programs. During this same period, the enrollment in the College of Agriculture in the last three years has been increasing at a rate of two to two and one-half times as fast as the rest of the University.

Agri-business is Florida's number one industry, and the largest single source of revenue to the State. Florida ranks fifth in the nation in cash income from the sale of crops, and at the very least we should rank fifth in the nation in our support of Agricultural research and education. There is no state in the country, except perhaps California, which has the great diversity of agricultural and environmental conditions which prevail in Florida.

Gentlemen, let me say that the situation we face today is very serious. When you consider the increase in taxes,

operating cost and foreign competition, it is a fact that the only way we can continue to exist and produce food is by investing in agricultural research and education for the future. Let me add that the general public has a great stake in this matter, because the consumer has been the principal beneficiary of agricultural research programs. You are professional farmers, but faming in everyone's business. The Florida Agricultural Council will not rest, or slacken its efforts, until Florida is number one in the nation in its support of agricultural research and education.

Respectfully submitted,

JAMES B. PRATT
Representative

REPORT OF EXECUTIVE COMMITTEE
FLORIDA STATE HORTICULTURAL SOCIETY
1967

Four meetings of the Executive Committee were held in 1967, with Arthur F. Mathias presiding as Chairman.
At the meeting of January 11, 1967, at Lake Alfred:

The following motions were adopted:

- a. That the Florida State Horticultural Society contribute \$500,000 to the Frank L. Holland Memorial Fund. This fund was sponsored by the Florida Agricultural Council with a contribution goal of \$8,000.00. Federal legislation had been enacted that would provide \$11.50 in federal money for each dollar of contributed money obtained, providing that these funds were used to create a student loan fund. This fund was established in the College of Agriculture in the University of Florida and provides loans that are essentially interest free to the student until he graduates from college.
- b. That the 1967 Executive Committee recommend to the membership at the next annual meeting that the by-laws be changed to screen resolutions through the Sectional business meeting, the Resolutions Committee, the Executive Committee, and the annual business meeting. A proposed draft of the by-law revision was prepared for presentation to the annual business meeting, on November 8, 1967. The disposition of this recommendation will be carried in the minutes of this annual business meeting.

At the meeting of May 10, 1967, at Lake Alfred:

The following motions were adopted:

- a. That a special copy of the 1966 Proceedings be bound for presentation to Mrs. Frank L. Holland, together with a letter expressing the appreciation of the Society for Frank L. Holland's long period of service.
- b. That the Society hold its 1969 meeting at the Carillon Hotel in Miami Beach. A contract was subsequently negotiated with the Carillon Hotel and a supplemental agreement negotiated with the Deauville Hotel.
- c. That the Society accept a recommendation of the Membership Committee to set the annual meeting registration fee for non-members at \$6.00 and to continue the registration fee for members at \$3.00.
- d. That a special committee appointed by the Chairman of the Executive Committee be authorized to expend up to \$150.00 for a gift to Elsie Spencer for her work in preparing the 1956-1965 Index to the Proceedings.

At the meeting of September 29, 1967, at the Carillon Hotel, at Miami Beach:

The following motions were adopted:

- a. That the bond for the Treasurer and for the Society Clerk be set at \$10,000.00 each.
- b. That the Secretary be instructed to work toward coordination of the 1970 meeting of the Florida State Horticultural Society with the meetings of the American Society for Horticultural Science, the American Horticultural Society, and the Tropical Region meeting of the American Society for Horticultural Science, while preserving the identity of the Florida State Horticultural Society meeting.
- c. That the Society recognize the essential work of the Sectional Vice-Presidents annually by presenting to each Sectional Vice-President an ornamental gavel suitably engraved, and that the

Society furnish rooms for the current Sectional Vice-Presidents at the annual meetings in the convention hotel.

- d. That the bid of E. O. Painter Printing Company on Publishing the 1967 *Proceedings* be accepted. This bid was lowest of those bids received, and was essentially identical with the bid received from that company for the 1966 *Proceedings*.
- e. That 5,000 copies of the Society's membership brochure be obtained and that the order form for back issues of the *Proceedings* be revised and 3,000 copies be printed.
- f. That a gold medal of the Society be awarded to Undine White for her 17 years of work assisting the Secretary in carrying out his duties with the Society.

In other business, four members of the Society were elected to honorary membership. The disclosure of the identity of these honorary members was scheduled for the annual banquet, November 8th.

At the meeting of November 7, 1967, at the Carillon Hotel, at Miami Beach:

The following motions were adopted:

- a. That the 1970 meeting of the Society be held during the period October 27 to October 30, at the Carillon and Deauville Hotels, and that the meeting be coordinated as closely as practicable with the meetings of the American Horticultural Society, the American Society for Horticultural Science, and the Tropical Region of the American Society for Horticultural Science, all of which are expected to meet in Miami Beach during the period October 27 to November 5, 1970.
- b. That the Executive Committee recommend to the membership at the 1967 annual meeting the establishment of a Program Coordinator as an officer of the Society and a member of the 15-man Executive Committee.

Respectfully submitted,

HERMAN J. REITZ,
Secretary.

80TH ANNUAL BUSINESS MEETING November 8, 1967 Miami Beach, Florida

The meeting was called to order by President Ed H. Price, Jr., at 11:00 a.m.

The minutes of the 79th Annual Business Meeting, held in Miami Beach on October 26, 1966, were approved as printed on Page 513 of Volume 79 of the *Proceedings*, upon order of the President.

The report of the Executive Committee for 1967, presented by Secretary Herman J. Reitz, was approved as read. This report is printed elsewhere in these *Proceedings*.

The report of the Treasurer, R. R. Reed, was approved as read. This report, brought up to date through December 31, 1967, appears elsewhere in these *Proceedings*.

Special recognition of 1967 Sectional Vice-Presidents for their invaluable service to the Society was given by President Price in the form of presentation of gavels especially engraved with their names and offices.

Old Business:

There was no old business.

New Business:

Secretary Reitz presented to the membership two proposals for revision of the Constitution and By-Laws of the Society. Both of these proposals had had previous endorsement of the Executive Committee. A proposal for the orderly handling of resolutions is as follows:

"Resolutions may originate either in the Resolutions Committee or in a regularly scheduled sectional business meeting. In the latter case, the resolutions must be supported by a majority vote of those members present and voting. All resolutions will be evaluated by the Resolutions Committee and transmitted with its recommendation to the Chairman of the Executive Committee. He will place them before the full Executive Committee by either (a) calling a special meeting of the Executive Committee or (b) instructing the Secretary to poll the members of the Executive Committee. Those resolutions approved by at least eight members of the Executive Committee will be presented by the Chairman of the Resolutions Committee to the membership at the annual business meeting for action by the Society as a whole."

Reitz moved the adoption of the proposed revision. R. S. Edsall seconded the motion, and it carried.

Reitz then read and explained a proposal to revise the Constitution to provide for the office of Program Coordinator. He moved the adoption of the following revisions in the Constitution:

- A. That Article IX—Officers be revised to read as follows:

"Article IX—Officers—The officers shall consist of a President, a Vice-President from each section, a Secretary, a Publication Secretary, an Editing Secretary, a Program Coordinator, and a Treasurer, which officers shall be elected by a majority vote of the membership present at the annual meeting and shall assume their respective offices at the beginning of the new year."

And that Paragraph 4 of Article XIV—Duties of Officers be revised to read as follows:

"The Publication Secretary, the Editing Secretary, and the Program Coordinator shall perform such duties as may be prescribed and authorized by the Executive Committee."

- B. It is further moved that for the year 1968 the Chairman of the Executive Committee be authorized to appoint the Program Coordinator from among the Members-at-Large of the Executive Committee, but that for 1969 and subsequent years the Program Coordinator shall be elected as prescribed in Article IX.

After discussion, the motion passed unanimously.

Special Committee Reports:

Florida Agricultural Council—J. B. Pratt reported that the Society's delegates to the Florida Agricultural Council during 1967 had been J. B. Pratt and O. R. Minton, with A. F. Mathias and George M. Talbott as alternates. Mr. Pratt presented the delegation's report, which is printed elsewhere in these *Proceedings*.

Membership—Membership Committee Chairman Leon Miller presented the Society's membership report. This report is published elsewhere in these *Proceedings*.

Necrology—The report of the Necrology Committee was presented by Fred P. Lawrence, and is printed elsewhere in these *Proceedings*.

Resolutions—Chairman of the Resolutions Committee W. E. Waters presented a resolution commending the officers and committee members of the Society and officials of the Carillon Hotel for a successful meeting. Mr. Waters' motion to adopt the resolution was carried.

Mr. Waters presented a resolution commending Ralph P. Thompson for his service as custodian of the Society's *Proceedings*. Mr. Waters' motion to adopt this resolution was carried.

Mr. Waters read a resolution commending the Society's delegates to the Florida Agricultural Council for their efforts on behalf of the agricultural budget during 1967. Mr. Waters' motion to adopt this resolution was carried.

Mr. Waters presented a resolution reaffirming the sponsorship by the Florida State Horticultural Society of the Citrus Budwood Registration Program. Mr. Waters explained that the resolution had arisen in the November 7th meeting of the Society's Budwood Registration Program Committee, had been adopted in the annual business meeting of the Citrus Section of the Society on November 7th, had received the endorsement of the Executive Committee through a poll of its members, and he moved the adoption of the resolution. The motion carried.

The text of these four resolutions is printed elsewhere in these *Proceedings*.

Nominating Committee—Chairman of the Nominating Committee John R. King nominated the committee's slate of officers. President Price called for nominations from the floor. E. L. Spencer moved that the nominations be closed and the Secretary be instructed to cast a unanimous ballot for the committee's slate of officers. The motion carried. The list of officers elected for 1968 is published elsewhere in these *Proceedings*.

There being no further business, the meeting adjourned at 11:45 a.m.

Respectfully submitted,

HERMAN J. REITZ, Secretary

RESOLUTION

WHEREAS, The 1962 freeze gave impetus to the rapid expansion of the Florida citrus industry and led to the heedless propagation of many thousands of citrus trees from unregistered and unknown parentage; and,

WHEREAS, Indiscriminate selection of scion budwood and rootstock seed sources has resulted in an alarming increase in the utilization of virus infected plants, probable use of off-type clones that could result in many poor quality non-productive trees; and,

WHEREAS, The recent downward trend in citrus prices has caused many non-registered citrus trees to be offered for sale on a "just as good as registered" basis; and,

WHEREAS, It has been the objective of the Florida State Horticultural Society to foster the improvement of the state's citrus budwood registration program; and,

WHEREAS, The value of this program has been demonstrated forcefully by a general decrease in the incidence of virus diseases by excellent yields of high quality fruit through carefully selected bud sources;

NOW THEREFORE BE IT RESOLVED: That the Florida State Horticultural Society reaffirms its sponsorship of the Citrus Budwood Registration Program, with the registered citrus tree declared as the minimum quality tree recommended for planting in Florida citrus groves, and

BE IT FURTHER RESOLVED: That established research agencies be requested to intensify research efforts into the comparative merits of various registered stocks and scions and that the Agricultural Extension Service and other educational agencies be requested to implement educational programs which will foster the use of registered trees only, and

BE IT FURTHER RESOLVED: That the Society reaffirms its belief in the registration program by mailing copies of this resolution to the following agencies and organizations, urging them to demonstrate continued support of the Budwood Registration Program by publicizing this resolution to its membership and commend it to the press for publication:

Florida Citrus Mutual
Florida Fresh Citrus Shippers Association
Indian River Citrus League
Florida Fruit & Vegetable Association
Florida Farm Bureau
Florida Nursery & Growers Association
Florida Citrus Commission
Florida Cannery Association
Citrus Production Managers Association
Florida Tangerine Cooperative
Florida Lime & Avocado Growers Association

Adopted By the Florida State Horticultural Society in Annual Meeting on November 8, 1967.

ED H. PRICE, JR., President
HERMAN J. REITZ, Secretary

RESOLUTION

WHEREAS, The Eightieth Annual Meeting of the Florida State Horticultural Society has been a most successful meeting, and

WHEREAS, The success has been largely due to the splendid efforts of the officers, Executive Committee, and the other special committees of this meeting and in the affairs of the Society;

BE IT THEREFORE RESOLVED, by the Florida State Horticultural Society that it express its sincere appreciation and gratitude to:

1. General Officers: President Ed H. Price, Jr., Chairman Arthur F. Mathias, Secretary Dr. Herman J. Reitz, Treasurer R. R. Reed, Publication Secretary Ralph P. Thompson, Editing Secretary W. L. Tait, and
2. Sectional Vice-Presidents: O. R. Minton, C. Wayne Hawkins, Dr. E. W. McElwee, Dr. Robert J. Knight, Jr., and Robert W. Kilburn, and
3. Gerald G. Norman, John Bryan Dye, Jr., Leon W. Miller,, and Dr. Will E. Waters, members-at-large of the Executive Committee, and
4. Local Arrangements Committee, John Bryan Dye, Jr., Chairman, and
5. The management and employees of the Carillon Hotel and especially Mr. Arnold Keithlin, Director of Sales, and Mr. Jack Wofford, Executive Convention Coordinator.

ADOPTED by the Florida State Horticultural Society in annual meeting on November 8, 1967.
HERMAN J. REITZ, Secretary

ED H. PRICE, JR., President

RESOLUTION

WHEREAS, Mr. Ralph P. Thompson has acted as custodian of the Society's stock of spare copies of the Proceedings and has stored these volumes for the past 22 years on his own property at no cost to the Society, and

WHEREAS, He has acted as sales representative for these volumes at no cost to the Society for the past 22 years,

BE IT THEREFORE RESOLVED That the Florida State Horticultural Society at its annual meeting in Miami Beach on November 8, 1967, takes this opportunity to express its sincere appreciation to Mr. Thompson for this outstanding service.

ADOPTED by the Florida State Horticultural Society in annual meeting on November 8, 1967.

ED H. PRICE, JR., President
HERMAN J. REITZ, Secretary

RESOLUTION

WHEREAS, The Society's delegates to the Florida Agricultural Council and the Florida Agricultural Council as a whole made a valiant effort in behalf of the Agricultural Budget during the 1967 extended session of the Legislature, and

WHEREAS, Without their efforts the Agricultural Budget might have been more seriously cut,

BE IT HEREBY RESOLVED That the Florida State Horticultural Society at its annual meeting in Miami Beach on November 8, 1967, takes this opportunity to express its deepest appreciation and gratitude to delegates O. R. Minton and J. B. Pratt and to the entire Agricultural Council.

ADOPTED by the Florida State Horticultural Society in annual meeting on November 8, 1967.

ED H. PRICE, JR., President
HERMAN J. REITZ, Secretary

SMOOT, J. J. and MELVIN, C. F.		potassium and nitrogen effects on tis- sue and yield (Locascio, Saxena)	173
Postharvest decay of specialty hybrid citrus fruits in relation to degreening time (illus.)	246	sprinkler for freeze protection (Locas- cio, et al.)	208
SODERHOLM, P. K.		wilt-resistant clones (Strobel)	138
Evaluation of <i>Dombeya</i> introductions for new ornamentals for Florida	477	STRINGFELLOW, T. L.	
SOIL		Studies on turfgrass insect control in South Florida (illus.)	486
amendments on soil moisture and young orange trees (Koo)	26	STROBEL, J. W.	
fertilizer rate effect on tomato popula- tions (Bryan, et al.)	149	Superior new strawberry clones resist <i>Verticillium</i> wilt (illus.)	138
phosphate effects on young citrus (Anderson, Calvert)	19	and WALTER, J. M., HAYSLIP, N. C. and EVERETT, P. H.	
SOIL ROT		Tropi-red and Tropi-gro—new disease resistant tomatoes for the fresh mar- ket (illus.)	112
plastic mulch effect on tomatoes (Hal- sey, Fluck, Beeman)	200	See Bryan	149
SPHAEROPSIS KNOT		STURROCK, T. T.	
rough lemon rootstock (Blazquez, Hunt)	46	Nucellar embryos of the mango (illus.)	350
		SUIT, R. F. see DuCharme	63
		SWAIN, H. L. see Hannon	59
		SWEET CORN	
		mechanized harvesting and handling (Showalter)	203
		TANGERINE	
		xyloporosis symptoms on hybrids (Yout- sey, Bentley)	67

THOMAS, J.		lime effect on Fusarium wilt (Everett, Blazquez)	
Agriculture: the legislative story	XXIX		143
TING, S. V.		WATERS, W. E.	
Nitrogen content of Florida orange juice and orange juice concentrate (illus.)	257	Outstanding paper award	XVIII
TOMATO		Influence of nutrition on yield, quality, and chemical composition of "Tropicana" roses on <i>Rosa fortuniana</i> rootstock (illus.)	396
disease resistant (Strobel, et al.)	112	See Littrell	405
effect of fertilizer rate on Rockdale soil (Bryan, et al.)	149	WEHLBURG, C. and MARTINEZ, A. P.	
gray leaf spot control (Conover)	162	Leaf spot of <i>Dracena marginata</i> Lam. caused by <i>Fusarium monifiliforme</i> Sheld, and its control (illus.)	454
mulch treatments with respect to virus and yields (Wolfenbarger, Moore)	217	See Alfieri	428
nitrogen content in processed fruit (Johnson, Orth)	313	WENZEL, F. W. see Moore	250
plastic mulch effect on soil rot (Halsey, Fluck, Beeman)	200	WESTGATE, P. J. see Sherman	344
potassium effect of tomato graywall (Hayslip, Iley)	172	WHITESELL, H. C.	
TORREYA		Necrology	493
stem and needle blight (Alfieri, et al.)	428	WHITMAN, W. F.	
TOXICITY		Decade of banana introductions (illus.)	361
perchlorate symptoms in citrus (Reese)	15	WILCOX, F. R.	
TURF		Co-operative marketing of citrus fruits	105
insect control (Stringfellow)	486	WILSON, C. W. III, NEUBERT, A. M. VELDHUIS, M. K. and MILLER, W. H.	
VEGETABLES		Recovery of volatile flavors from celery (illus.)	292
liquid and dry fertilizer placement (Nettles, Hulburt)	193	WILSON, W. C.	
nematicides applied in-the-row (Rhoades, Beeman)	156	Chemical abscission studies of citrus fruit (illus.)	227
underground asphalt moisture barrier effect in fine sand (Saxena, et al.)	211	See Brown	301
VELDHUIS, M. K. see Wilson	292	WILT	
VIRUS		lime effect on Fusarium on watermelon (Everett, Blazquez)	143
exocortis of citrus spread by contaminated tools (Garnsey)	68	<i>Verticillium</i> resistant strawberry (Strobel)	138
infected orange trees on various rootstocks (Gardner, et al.)	89	WINCHESTER, J. A.	
mulch treatments on squash and tomatoes (Wolfenbarger, Moore)	217	Nematode control for ornamental foliage plants (illus.)	451
symptoms of xyloporosis on tangerine hybrids (Youtsey, Bentley)	67	WIREWORM	
WAGNER, C. J. see Berry	280	insecticide treatments on potatoes (Baranowski)	115
WALTER, J. M.		WOLFE, S. see Berry	280
Necrology	493	WOLFENBARGER, D. O. and MOORE, W. D.	
See Strobel	112	Mulch treatments of squash and tomatoes with respect to virus infections and yields (illus.)	217
WATERMELON			
fertilizer and rates effect on yields (Fiskell, et al.)	168		

WOLFORD, R. W. see Ismail	261	trees on different rootstocks in flat-wood soil (illus.)	53
WOLTZ, S. S.			
Comparison of yellow strapleaf syndromes produced by ANCPA and isomers of isoleucine (illus.)	459	YOUNG, T. W., and KOO, R. C. J. Effects of nitrogen and potassium fertilization on Persian limes on Lakeland fine sand (illus.)	337
WOODHAM, L.			
Necrology	493	YOUTSEY, C. D. and BENTLEY, A. L. Symptoms of xyloporosis (cachexia) virus on Robinson and Lee tangerine hybrids	67
YELENOSKY, G. and HEARN, C. J.			
Cold damage to young mandarin-hybrid
