

NECROLOGY

CARL F. LADEBURG

Horticulture lost a true friend and scientist in the death of Carl F. Ladeburg October 16, 1956 at Veteran's Hospital, Coral Gables, Florida.

Not only was he responsible for many developments in the pesticide field within his own firm, but this interest, knowledge, and thoroughness extended to many related problems of technical and practical nature in a wide range of crops and enterprises.

Carl Ladeburg was an outstanding industry representative in systematizing and enumerating pesticide developments, particularly since and during World War II, including valuable contributions to such endeavors as the first "Handbook on Pesticides and their Uses in Florida."

At the time of his death, he worked closely with many agencies on such factors as pesticide residue, tolerances, laws and usages. All of his efforts were marked by carefully detailed work in the interest of the industry which he so ably represented.

Carl Ladeburg was born November 26, 1897 in Magdeburg, Germany and attended schools in that country. On coming to the United States he did post graduate work at the University at Los Angeles. He was then employed by the firm of McLaughlin, Cormely & King, Inc., Minneapolis. Later in March, 1940 he came to Florida on the staff of the Kilgore Seed Company as an entomologist, and subsequently became manager of the Insecticide Division of that firm.

His service record includes the U. S. Army from July 18, 1942 to March 6, 1943 at which time he returned to his position with the Kilgore Seed Company. He served in the Coast Guard Reserve and was honorably discharged.

Carl Ladeburg was an enthusiastic fisherman, accomplished amateur astronomer, and an active member of the following organizations and professional societies: American Legion, American Cancer Society, The Soil Science Society of Florida, The Manufacturing Chemists Association, Inc., Association of Food & Drug Officials of the United States, The Florida Entomological Society, The American Chemical Society, The Entomologi-

cal Society of America, The National Agricultural Chemicals Association, The Florida Agricultural Research Institute, The Florida State Horticultural Society, The Florida Turf Association.

JAMES E. HENDRY, JR.

James E. Hendry, Jr., was fatally injured in an automobile accident in Fort Myers, on November 6. He died in Lee Memorial Hospital on November 8, 1955. He never regained consciousness after suffering a brain injury in a collision on First Street Sunday morning between his Everglades Nursery pickup truck and a city police car, speeding excessively to an emergency call that turned out not to be an emergency.

Mr. Hendry was almost wholly responsible for making Fort Myers known as the City of Palms and he won world acclaim for his hybrid Bougainvillea. He also was the first man in Florida to graft gardenias on a root knot resistant understock, which made it possible for every gardener in Florida to have a gardenia in their yard. He won the "Johnny Appleseed" award presented by the Men's Garden Club of America last April at their annual convention held in Houston, Texas. He was the first man to receive this award that received his livelihood from plants. Heretofore the award had gone only to men who were amateur gardeners or horticulturalists. Mr. Hendry was truly a "Johnny Appleseed" for in all his years as a grower he was always planting seeds of this and that, not thinking of his enjoyment but that in the future many people would enjoy the fruits of his labor, and truly they will for the avenue of Royal Palms and all the avenues of palms in Fort Myers will be enjoyed by many people for many years to come. Mr. Hendry was never too busy to help a gardener. One of his last acts was to send some royal poinciana seeds to a lady in Texas.

Mr. Hendry was perhaps best known in Fort Myers for his tireless efforts towards making his town more beautiful from a landscape standpoint. He was appointed to the first park board in 1915 and served as head and his last project was the leadership in

planting the Hibiscus Garden which has just been finished.

In 1908 he started the Everglades Nursery, which brought him much happiness and fame. He devoted his life to his work which was his love for plants from this time until he died. He was looking for palm seeds on the morning of the accident. He gave much of his time supervising the care and maintenance of the beautiful palms that line the streets of his beloved city.

A memorial garden is being planned at Lee Memorial Hospital because of Mr. Hendry's keen interest in the grounds of the hospital. This living memorial garden was started spontaneously by many of Mr. Hendry's friends throughout Florida and the nation. If anyone would be interested in taking part in this tribute to Mr. Hendry, make your checks payable to James E. Hendry Hospital Garden Fund and mail to Mr. Sidney Davis, treasurer, P. O. Box 8, Fort Myers, Florida. Plans for the gardens have been completed and will be on display in the hospital Reception Room and we believe this fund will grow until the garden can be built for a living memorial to this lover of flowers and benefactor of mankind.

Mr. Hendry is survived by his wife, Florence S. Hendry, a son J. E. Hendry, 3rd, a daughter, Mrs. Robert H. Linderman, and three granddaughters, Susan, Peggy, and Molie Hendry.

MILTON ALEXANDER CAINE
New Rochelle, New York

Milton Alexander Caine of New Rochelle, New York, died December 25, 1956, at the age of 73 in New Rochelle Hospital.

Mr. Caine was a mining executive and engineer and was a director and executive vice-president of the Tennessee Corp., 61 Broadway, New York City; director and vice-president of the Tennessee Copper Corp.; vice-president of the Miami Copper Co., and director of the New Haven Copper Co.

He was born in Saginaw, Mich.; educated in public schools of Lansing and Midland, Mich.; attended Michigan State University, and received his mining engineer's degree from the Michigan College of Mines.

Mr. Caine was a member of the American Institute of Mining and Metallurgical Engi-

neers, the Bankers Club of America and the Wykagyl Country Club of New Rochelle. He was an elder of the North Ave. Presbyterian Church of New Rochelle.

HARRY HAMLETT CONSTANTINE
Clearwater, Florida

Harry Hamlett Constantine, 70, one of the early pioneers in Florida gladiolus growing and a resident of Clearwater for the past 47 years, died October 20, 1956 in Asheville, N. C.

Mr. Constantine had been in the gladiolus growing business for 23 years, coming here from Oxford, Ala. He was also a citrus grower and was with the firm of Constantine Farms, Inc. He was a vice-president and a director of the Bank of Clearwater for a number of years and a member of the Rotary Club, a member of the Clearwater Yacht Club, a member of the First Methodist Church and was active in the Chamber of Commerce in earlier years.

He attended Alabama Polytechnical College at Auburn, and was a member of Phi Kappa Alpha social fraternity.

WALTER NATHAN PIKE
New Port Richey, Florida

Walter Nathan Pike, 90, pioneer citrus grower of Pasco County, died July 13, 1956 at his home in New Port Richey where he was a resident for the past 12 years.

Previously he had been a resident of the Blanton community where he came in 1887 from Floral Park, N. Y.

With the late W. J. Ellsworth, he established Jessamine Gardens giving Pasco County its first commercial horticulture of flowers and its first greenhouses. Mr. Pike's interest in this industry stemmed from his long editorship of "The Mayflower," the horticultural magazine of John Lewis Childs, nationally known florist of Floral Park.

When the partners later converted their floral gardens into citrus groves their property became known as Jessamine Groves and a landmark in this section. Following dissolving of the partnership in 1937, Mr. Pike sold his interest in the groves to Mr. Ellsworth, and they are now owned by Dr. P. Phillips and Sons.

Mr. Pike was a native of North Carmel, Maine, where he was born September 26, 1862.

FLORIDA STATE HORTICULTURAL SOCIETY, 1956

421

REPORT OF EXECUTIVE COMMITTEE

Four meetings of the Executive Committee of the Society were held during 1956, with President R. A. Carlton presiding as Chairman.

On January 12, 1956 in Winter Haven with 13 members present:

It was moved and carried that sectional abstracts be continued as a means of evaluating papers and aiding in publicity. It was felt that the preparation of abstracts should be the responsibility of the Vice-Presidents, the cost being charged to the Society where necessary.

It was moved and carried that all members in attendance, regardless of classification, should pay the registration fee. Guest speakers would be exempt along with those voted exemption by the Executive Committee on January 6, 1955.

The report on the sectional voting during the 1955 Annual Meeting indicated all sections to be in favor of holding the annual meeting in the fall rather than in the spring.

Due to the slow progress being made in compiling the 30-year Index since its inception in January 1954, the Secretary was instructed to terminate the agreement then in force and make other arrangements to complete the indexing with whatever assistance might be necessary.

The Virology Fellowship, as established by the Society at its 68th Annual Meeting in Clearwater on November 2, 1955, has been awarded to Robert Bozarth of the University of Florida.

Following a survey report from the President and Secretary, it was moved and carried that the 69th Annual Meeting of the Society be held in Orlando at the Angebilt and San Juan Hotels, November 7-9, 1956.

On May 22, 1956 in Winter Haven with 13 members present:

The Publication Committee reported that due to inconsistencies and incomplete abstracting, it was necessary to re-index the 22 volumes of the Proceedings completed as of February 1956. It was moved and carried that the authorship of the Index be anonymous and that the contract for printing 500 copies be awarded to The Bradenton Herald as the low bidder. The Index will sell for \$3.00 per copy, but all orders placed prior to the 1956 Annual Meeting will be filled at \$2.00 per copy.

A request was considered from the Citrus Packing-House Managers for the organization of a sixth section of the Society to deal with packing-house problems. Following a meeting of a special committee from the Society with representatives of the Citrus Packing-House Managers, it was decided to devote one session of the Processing Section program to papers dealing with packing-house problems.

On October 8, 1956 in Orlando with the full Executive Committee present:

The Secretary reported that the 30-year Index had been received and all prepublication orders had been filled.

It was moved and carried that an annual index be prepared for each volume of the Proceedings beginning with Vol. 69, 1956.

Three members of the Society were designated by more than a two-thirds vote as Honorary Members. They were Dr. A. F. Camp, Mr. H. G. Clayton and Mr. Lloyd S. Tenny.

It was moved and carried that affiliation with the Society can only be on an individual membership basis and not on a group basis.

It was re-emphasized that since the Society is a non-profit organization, it is necessary to charge a registration fee to defray the expenses of the Annual Meetings.

The Nominating Committee as suggested by the sectional Vice Presidents was accepted by the President.

On November 7, 1956 in Orlando with 14 members present:

The Virology Fellowship established by the Society at the University of Florida has been renewed for the second year.

The Publication Committee was authorized to award the contract for printing the 1956 Proceedings to the Stuart Daily News, Inc.

The membership as of November 6, 1956 was 1,299, an increase of 28% over that recorded November 1, 1955.

Respectfully submitted,

Ernest L. Spencer,
Secretary

GENERAL BUSINESS MEETING

Orlando, Florida

November 7, 1956

The meeting was called to order at 4:15 P. M. by President R. A. Carlton.

The report of the Treasurer, R. R. Reed, as printed elsewhere in the Proceedings, was approved as read.

The report of the Executive Committee Meetings by Dr. Ernest L. Spencer, Secretary, was approved as read.

Mr. Frank M. O'Byrne enumerated the members who had passed away during 1956.

The resolutions as listed elsewhere in these Proceedings were accepted as read by Dr. Roy A. Bair, Chairman of the Resolutions Committee.

Mr. George H. Wedgworth reported on the activities of the Florida Agricultural Council.

The report of the Membership Committee, as read by Mr. George M. Talbot, showed that 86 new members had joined the Society during the course of the 69th Annual Meeting. The membership now numbers 1,384.

The report of the Nominating Committee was presented by Mr. Cliff Sutton. The nominees as listed at the front of these Proceedings were unanimously elected.

The official registration at the start of the Business Meeting was 633.

The meeting was adjourned at 5:00 P. M.

RESOLUTIONS

RESOLVED, that the Florida State Horticultural Society express appreciation to the United States Department of Agriculture, the University of Florida Agricultural Experiment Stations and the Extension Service, and the University of Miami for their outstanding contributions during the year to Florida Horticulture covering many important advances in the nutrition of citrus, vegetables and ornamentals, the control of plant diseases and insect pests, the breeding and testing of new varieties adapted to Florida growing conditions, and processing refinements with tropical and sub-tropical fruits.

RESOLVED, that the Florida State Horticultural Society express appreciation and thanks to the City of Orlando, to Joel L. Moore, Director of the Convention Bureau of Orlando and his assistants, and to the Angebilt and San Juan Hotels for their cooperation and efforts in making this meeting successful.

FLORIDA STATE HORTICULTURAL SOCIETY, 1956

RESOLUTION

WHEREAS, the sixty-ninth Annual Meeting of the Florida State Horticultural Society has been one of the most successful meetings in the history of the Society, and

WHEREAS, this success has been largely due to the splendid efforts of the Officers, Executive Committee and others in the planning of this meeting and in the affairs of the Society during the past year;

THEREFORE BE IT RESOLVED by the Florida State Horticultural Society that it express its sincere appreciation and gratitude to:

1. President R. A. Carlton, Vice Presidents C. A. Root, Roy O. Nelson, Louis F. Rauth, Dr.

T. J. Sheehan and Dr. R. D. Gerwe, Secretary Dr. Ernest L. Spencer, Treasurer R. R. Reed, Publication Secretary Ralph P. Thompson and Editing Secretary W. L. Tait, and

- Howard A. Thullberg, Frank L. Holland, Dr. F. S. Jamison, J. Arthur Lewis and E. S. Reasoner, members at large of the Executive Committee, and
- George M. Talbott, Chairman of the Local Arrangements Committee and members of his committee, Dr. Frank E. Gardner, Dr. Philip J. Westgate, J. Claude Epting and Cliff Sutton; and Mrs. Frank E. Gardner, Mrs. Al. H. Whitmore and Mrs. Cliff Sutton of the Ladies Committee.

Total Membership 1157

ANTIBIOTICS		
streptomycin, bacterial spot control (Sowell)	244	
APHID		
transmission of tristeza (Norman, Grant)	38	
ATKINS, C. D., ROUSE, A. H. and MOORE, E. L.		
Effect of thermal treatment and concentration on pectinesterase, cloud and pectin in citrus juices using a plate type heat exchanger (illus.)	181	
See Moore 176; Rouse 145; Wenzel 170.		
AVOCADO		
and Lime Commission (Ivins)	262	
committee report (Lincoln)	276	
cultural and maintenance practices (Sutton)		
longtime culture effect on soil (Malcolm)	274	
marketing (Kendall)	313	
nitrogen, phosphorus, potassium effect (Lynch, Goldweber)	270	
	289	
AYERS, E. L. and ROHWER, G. G.		
Mediterranean fruit fly eradication program in Florida	12	
BACTERIAL SPOT		
assay, streptomycin control (Sowell)	244	
BARBADOS CHERRY		
rooting (Nelson, Goldweber)	285	
selections for commercial plantings (Ledin)	293	
BARRON, R. W. see Wenzel	170	
BEAN		
pole bean rust control with maneb-sulfur (Conover)	247	
BIRCHFIELD, W. see DuCharme	42	
BISKIND, M. see Sokoloff	128	
BISETT, O. W. and VELDHUIS, M. K.		
Effects of finisher pressure on characteristics of Valencia orange concentrate (illus.)	109	
BLACKHEART		
celery, control evaluation (Geraldson)	236	
BLOSSOM-END ROT		
tomatoes, control evaluation (Geraldson)	236	
BOSS, M. see Goldweber	328	
BREEDING		
southern peas (Lorz)	210	
BROKAW, C. H. see Murdock	154	
BURGIS, D. S. and OVERMAN, A. J.		
Crop production in soil fumigated with crag mylone as affected by rates, application methods and planting dates (illus.)	207	
See Overman	250	
BURT, E. O. see Helms	407	
BUTCHER F. G. and GOLDWEBER, S.		
Notes on a weevil attacking mahogany trees (illus.)	303	
BY-PRODUCTS		
citrus pulp and insect problem (Laudani, Davis, Swank, Yeomans)	191	
CAMP, A. F.		
Honorary membership	16	
CAMPBELL, J. D.		
Sub-tropical fruit program of Dade County		272
CANNING		
grapefruit sections, from plots with varying amounts potash (Wenzel et al.)		170
sodium nitrate as corrosion inhibitor (Marshall)		159
CANTALOUPE		
fungicides, phytotoxicity (Conover)		198
hydrocooling (Ford)		138
varieties; progress report (Whitner)		195
CARLTON, R. A.		
Presidential address		1
CELERY		
blackheart, control evaluation (Geraldson)		236
seedbed, disease control (Cox)		242
CHAMELIN, I. see Sokoloff		128
CHRYSANTHEMUM		
nutritional requirements (Woltz)		352
CITRUS		
aphid transmission of tristeza (Norman, Grant)		38
burrowing nematode infected, under greenhouse conditions (Feder, Feldmesser)		29
burrowing nematode races in relation to tristeza (DuCharme, Birchfield)		42
cleaning under high pressure (Murdock, Brokaw)		154
dieback in young transplanted trees (Grimm)		31
4-H Club program (McCown)		52
greasy spot control; progress report (Thompson, King, Deszyck)		98
methods of managing closely set citrus (Lawrence, Norris)		54
nematodes, mechanical transmission (Tarjan)		34
phosphate effect on root, soil pH at various depths in sandy soil (Smith)		25
products, standardization (Pobecky)		125
purification of naringin (Hendrickson, Kesterson)		149
purple mite control, systox (Johnson)		93
rootstock selections tolerant to burrowing nematode (Ford)		44
timing fertilization (Reitz)		58
tristeza, injury and loss of trees (Cohen)		19
use of 1,2-dibromo-3-chloropropane, burrowing nematode infected (Feldmesser, Feder)		105
zinc fertilizers (Leonard, Stewart, Edwards)		72
CLAYTON, H. G. Honorary membership		17
COHEN, M.		
Injury and loss of citrus trees due to tristeza disease in an Orange County grove (illus.)		19
CONCENTRATE		
effects of finisher pressure, Valencia orange (Bissett, Veldhuis)		109

CONOVER, R. A.	
Phytotoxicity of fungicides to cantaloupes (illus.)	198
Control of pole bean rust with maneb-sulfur dust. (illus.)	247
CONSTANTINE, H. H. Necrology	420
CORBETT, M. K.	
Virus ring spot of <i>Peperomia obtusifolia</i> and <i>Peperomia obtusifolia</i> var. <i>Variegata</i> (illus.)	357
CORROSION	
inhibited by sodium nitrate (Marshall)	159
COX, R. S.	
Control of diseases in the celery seedbed	242
and HAYSLIP, N. C.	
Notes on current development of gray mold, <i>Botrytis Cinerea</i> Fr. of tomato and its control (illus.)	235
CRALL, J. M. see Helms	407
CRANE, M. A. Necrology	420
CUCUMBER	
fungicides (Sowell)	230
DAVIS, D. F. see Laudani	191
DENNISON, R. A. and HALL, C. B.	
Influence of nitrogen, phosphorus, potash and lime on the growth and yield of strawberries (illus.)	224
See Hall	228
DESZYCK, E. J. and TING, S. V.	
Seasonal changes in the juice content of pink and red grapefruit during 1955-56 (illus.)	68
See Thompson 98; Wenzel 170.	
DICKEY, R. D.	
Genus <i>Solandra</i> in Florida (illus.)	405
DIEBACK	
young transplanted citrus (Grimm)	31
DISEASE	
<i>Botrytis</i> , gladiolus (Magie) control in celery seedbed (Cox)	337
grapefruit, sloughing (Grierson, Patrick)	242
gray mold control, tomato (Cox, Hayslip)	140
DuCHARME, E. P. and BIRCHFIELD, W.	
Physiologic races of the burrowing nematode in relation to citrus spreading decline.	42
EDWARDS, G. see Leonard	72
ESPINAL, H. see Sokoloff	128
FAY, A. C. see Lister	136
FEDER, W. A. and FELDMESSER, J.	
starting and maintaining burrowing nematode-infected citrus under greenhouse conditions (illus.)	29
See Feldmesser	105
FELDMESSER, J. and FEDER, W. A.	
Use of 1,2-dibromo-3-chloropropane on living citrus trees infected with the burrowing nematode (illus.)	105
See Feder	29
FERN	
chemical weed control (Helms, Crall, Burt)	407
FERTILIZER	
and seeding rates for potatoes (McCubbin)	259
chrysanthemum (Woltz)	352
citrus, timing (Reitz)	58
gladiolus (Woltz)	347
phosphate effect on citrus roots at different depths (Smith)	25
zinc on citrus (Leonard, Stewart, Edwards)	72
FORD, H. W.	
Citrus rootstock selections tolerant to the burrowing nematode (illus.)	44
FORD, K. E.	
Hydrocooling cantaloupes (illus.)	138
FRIERSON, P. E.	
Florida nursery law	370
FUMIGATION	
rates, application and planting dates on crop production (Burgis, Overman)	207
FUNGICIDE	
cantaloupe, phytotoxicity (Conover)	198
cucumber (Sowell)	230
effects on vegetable seedbeds (Overman, Burgis)	250
plant injury (Martinez)	413
GENUNG, W. G. see Wilson	217
GERALDSON, C. M.	
Evaluation of control methods for blackheart of celery and blossom-end rot of tomatoes (illus.)	236
GLADIOLUS	
<i>Botrytis</i> control (Magie)	337
corm and soil treatment (Kelsheimer)	403
fertilization (Woltz)	347
GOLDWEBER, S., BOSS and LYNCH, S. J.	
Effects of nitrogen, phosphorus and potassium fertilization on the growth, yield and fruit quality of Persian limes (illus.)	328
See Butcher 303; Lynch 289; Nelson 285.	
GRANT, T. J. see Norman	38
GRAPEFRUIT	
canned sections, from plots with varying amounts potash (Wenzel et al.)	170
degrees Brix in fruit utilized for processing (Stenstrom, Westbrook)	113
improvement of processed products, increased utilization (Wenzel, Moore)	79
seasonal changes in juice content 1955-56 (Deszyck, Ting)	68
sectionizing Marsh seedless (Singleton)	152
sloughing disease (Grierson, Patrick)	140
stem pitting threat to grower? (Knorr, Price)	65
GRASS	
zoysia, damage by hunting billbug (Kelsheimer)	415

GREASY SPOT		
progress report on control (Thompson, King, Deszyck)	98	problem in dried citrus pulp (Laudani, Davis, Swank, Yeomans) 191
GRIERSON, W.		problems on Southern pea (Wilson, Genung) 217
Reducing losses in harvesting and handling tangerines (illus.)	165	weevil attacking mahogany (Butcher, Goldweber) 303
and PATRICK, R.		
Sloughing disease of grapefruit (illus.)	140	
GRIMM, G. R.		
Preliminary investigations on dieback of young transplanted citrus trees (illus.)	31	INSECTICIDES
HALL, C. B. and DENNISON, R. A.		parathion on gladiolus corms (Kelsheimer) 403
Lime-induced manganese deficiency of strawberries (illus.)	228	purple mite control, systox (Johnson) 93
See Dennison	224	
HALSEY, L. H.		IRRIGATION
Variety tests of commercial types and new breeding lines of southern pea (illus.)	255	potato studies (Myhre) 200
HANDLING		
frozen fruits, vegetables, juices (Lorant)	185	IVINS, C. F.
tangerines, reducing losses (Grierson)	165	Concept, duties, and operations of the Florida Avocado and Lime Com- mission 262
HARDING, P. L. see Soule	282	
HAYSLIP, N. C. see Cox	235	
HELMs, C. C. Jr., CRALL, J. M. and BURT, E. O.	407	JALIL, M. and SHARPE, R. H.
Studies on chemical weed control in Plumosus fern (illus.)		Rooting of peach cuttings under mist as affected by media and potassium nutrition (illus.) 324
HENDRICKSON, R. and KESTERSON, J. W.	149	JOHNSON, R. B.
Purification of naringin	419	Notes on the use of systox for purple mite control on citrus (illus.) 93
HENDRY, J. E., Jr. Necrology		
HERBICIDE	250	JUICE
effects on vegetable seedbeds (Overman, Burgis)	407	chilled orange, quality control (Lister, Fay) 136
Plumosus fern (Helms, Crall, Burt)	204	diacetyl production in orange (Witter) distribution and handling frozen (Lorant) 120
tomatoes (Noonan)	16	grapefruit, seasonal changes 1955-56 (Deszyck, Ting) 185
HONORARY MEMBERSHIP	17	orange; pectin and other chemical changes in 42° Brix (Rouse, Atkins, Moore) 145
Camp, A. F.	15	orange; physical changes and cloud retention in 42° Brix. I (Moore, Rouse, Atkins) 176
Clayton, H. G.	261	orange; rapid determination of peel oil (Kilburn, Petros) 107
Tenny, L. S.	213	thermal treatment and concentration, effect on pectinesterase and pectin (Atkins, Rouse, Moore) 181
HOOPER, M. M.		KATO, S. see Sokoloff
Production of spinach for processing on muck soils of Central Florida		KELSHEIMER, E. G.
HOOVER, M. W.		Effect of parathion as a corm and soil treatment for gladiolus (illus.) 403
Factors influencing consumer prefer- ence of southern peas (cowpeas) (illus.)	142	Hunting billbug a serious pest of zoysia (illus.) 415
and NETTLES, V. F.	170	KENDALL, H. E.
Effect of variety and fresh storage upon the quality of frozen sweet potatoes (illus.)	403	Marketing of limes and avocados in Florida 270
HUGGART, R. L. see Wenzel	12	KERR, S. H.
INSECT	415	Pesticides and plant injury (illus.) 398
corm and soil treatment (Kelsheimer)	379	KESTERSON, J. W. see Hendrickson
hunting billbug, pest of zoysia (Kelsheimer)	403	KILBURN, R. W. and PETROS, L. W.
Mediterranean fruit fly eradication (Ayers)	12	Rapid determination of peel oil in orange juice for infants (illus.) 107
Mediterranean fruit fly on orna- mentals (McElwee)	379	KING, J. R. see Thompson
Mediterranean fruit fly on subtropical fruits (Ruehle)	287	KNIGHT, E. T.
		Regional performance of <i>Hemerocallis</i> in Florida (illus.) 363
		KNORR, L. C. and PRICE, W. C.
		Is stem pitting of grapefruit a threat to the Florida grower? 65
		LADEBURG, C. F. Necrology
		419

LANDSCAPE		
outdoor living space (Mack)	360	
LAUDANI, H., DAVIS, D. F., SWANK, G. R. and YEOMANS, A. H.		
Dried citrus pulp insect problem and its possible solution with insecticide-coated paper bags (illus.)	191	
LAWRENCE, F. P. and NORRIS, R. E.		
Field observations of several methods of managing closely set citrus trees	54	
LEDIN, R. B.		
Comparison of three clones of Barbados cherry and the importance of improved selections for commercial plantings (illus.)	293	
Twelve Bauhinias for Florida (illus.)	388	
LEONARD, C. D., STEWART, I. and EDWARDS, G.		
Effectiveness of different zinc fertilizers on citrus (illus.)	72	
LILY		
<i>Hemerocallis</i> , regional (Knight)	363	
LIME		
manganese deficiency induced by (Hall, Dennison)	228	
strawberries (Dennison, Hall)	224	
LIMES		
and avocado commission (Ivins)	262	
cultural and maintenance practices (Sutton)	274	
fertilizer effects on growth, yield, quality (Goldweber, Boss, Lynch)	328	
marketing (Kendall)	270	
LINCOLN, F. B.		
Krome Memorial avocado variety committee report	276	
LISTER, L. J. and FAY, A. C.		
Quality control of chilled orange juice from the tree to the customer	136	
LORANT, G. J.		
Distribution and handling of frozen fruits, vegetables and juices (illus.)	185	
LORZ, A. P.		
Breeding objectives and the establishment of new breeding lines of Southern peas (illus.)	210	
LYCHEE		
commercial crop (Palmer)	309	
response to girdling (Young)	305	
LYNCH, S. J. and GOLDWEBER, S.		
Effects of nitrogen, phosphorus and potassium fertilization on the yield and tree growth of avocados (illus.)	289
