INTRICATE BALANCE

Jacqueline Hanners, Class of 2021

Computers. Tablets. Smartphones.
It's easy to envelop oneself in the wonders of technology.
The world's information a moment's notice away.
The world's entertainment a moment's notice away.
The world's social interactions a moment's notice away.
Look up.
No computers.
No tablets.
No smartphones.
The sound of fish splashing in the water.
The warmth of the rising sun.
The cool breeze caressing one's cheek.
Take a moment.
Soak in the delightful senses nature has to offer.
Often overlooked.
Nonetheless extraordinary.
