
COASTAL PHOTOGRAPH BY H. JESSE WALKER

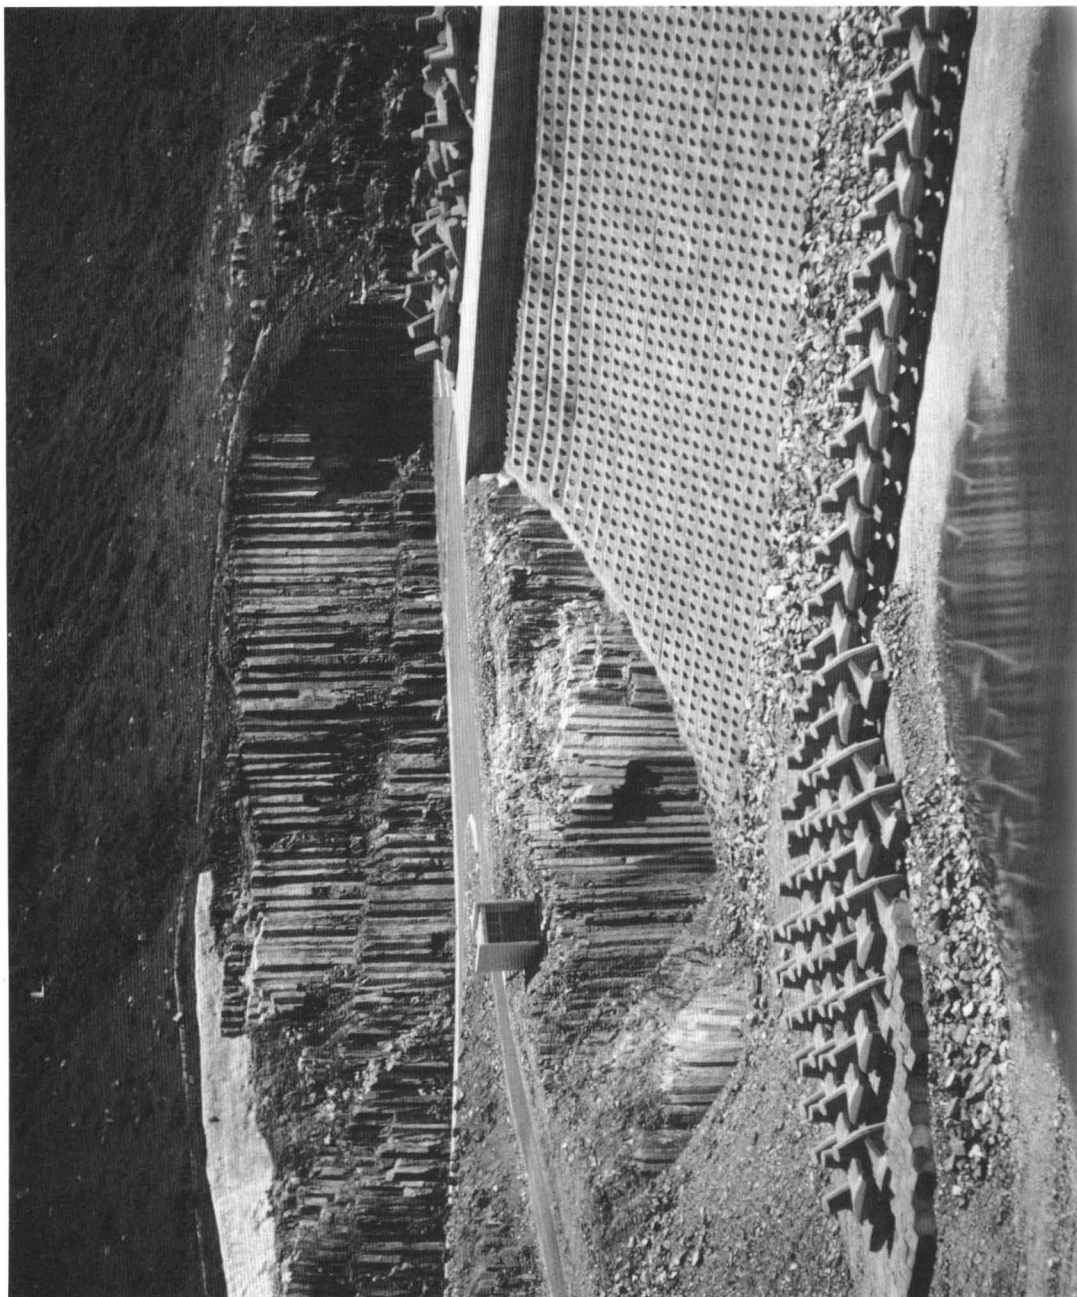

PHOTO 139. The dam that protects the High Island reservoir on the Pacific Ocean shore, with dolos at its base and top. This reservoir was made by damming a strait in Hong Kong and converting it into a fresh-water reservoir. (Photo: H. Jesse Walker, Department of Geography & Anthropology, Louisiana State University, Baton Rouge, LA 70803). Louisiana State University, Baton Rouge, LA 70803).
