
THE COASTAL EDUCATION AND RESEARCH FOUNDATION

355 West Rio Road, Suites 202A-203D
Post Office Box 8068
Charlottesville, Virginia 22906-8068, USA

Officers of the Foundation

Founded in 1983 by: Charles W. Finkl, Sr., Charles W. Finkl, Jr., Rhodes W. Fairbridge, and Maurice L. Schwartz.

President & Associate Director:

Charles W. Finkl, Sr.

Vice President & Executive Director:

Charles W. Finkl, Jr.

Secretary-Treasurer:

Barbara J. Girouard

Board of Directors

Lucius H. Brasey, Jr.	Roy R. Lemon
Per Bruun	Robert E. Murdoch
Donald R. Coates	Edward J. Petuch
Rhodes W. Fairbridge	Maurice L. Schwartz
David W. Fischer	Andrew D. Short
Richard A. FitzGerald	Ian Watson
Larry Klingler	

The Coastal Education and Research Foundation [CERF] is a nonprofit corporation dedicated to the advancement of the coastal sciences. The Foundation is devoted to the multi-disciplinary study of the complex problems of the coastal zone. The purpose of CERF is to help translate and interpret coastal issues for the public and to assist professional research and public information programs. The Foundation specifically supports and encourages field and laboratory studies on a local, national, and international basis. Through the medium of scientific publications, television, and radio CERF brings accurate information to the public and coastal specialists on all aspects of coastal issues in an effort to maintain or improve the quality of shoreline resources.

Because CERF is concerned with broad environmental issues, our efforts concentrate on significant problems such as main-

tenance of good quality (potable) water with adequate supply, and hazards associated with potential beach erosion, flooding, and susceptibility of developed shorelines to storm surge and wave attack. By focusing attention on these potential man-made and natural hazards, it is hoped that our research efforts will help others improve the quality of life in diverse coastal areas. CERF thus aims to stimulate awareness of coastal (marine and freshwater shorelines) land and water problems; initiate and foster research and innovation to promote long-term coastal productivity; establish an educational forum for the debate of contentious coastal issues; and develop new principles and approaches for enlightened coastal management, and encourage their adoption and use.

CERF is associated with the Department of Geology at Florida Atlantic University in Boca Raton, Florida 33431, and the Department of Environmental Sciences, University of Virginia, Charlottesville, Virginia 22903. Internships for students at the University of Virginia provide "hands-on" experience with journal production and professional publishing in general. These associations provide a basis for cooperative investigation of biophysical resources found in open and naturally protected coastal regions, estuaries, large inland bodies of water bounded by shorelines, wetlands, and other coastal environments. Joint investigative efforts by faculty, students, and staff span a wide and diversified range of interrelated topics that are relevant to solutions of today's dynamic problems. It is hoped that these combined attempts to better understand the nature of coastal processes will help forestall what may become contentious issues of tomorrow.

□ CERF MEMBERSHIP □

Members are individuals, institutions, and corporations that support the aims of the Foundation through personal and group efforts or by donations. Memberships are available in different categories with privileges.

Publications of the Foundation:

CERF Quarterly Journals:

Journal of Coastal Research (JCR): An International Forum for the Littoral Sciences (ISSN 0749-0208). [US\$50.00]

Current Titles in Ocean, Coastal, Lake & Waterway Sciences (ISSN 0883-4725). [US\$25.00]

Special Issues and Reports:

Journal of Coastal Research:

Special Issue No. 1 (1986): Late Quaternary Sea-Level Changes and Coastal Evolution, edited by Paolo Pirazzoli and John R. Suter. [US\$22.50]

Special Issue No. 2 (1986): Annotated Bibliography of Quaternary Shorelines, Fourth Supplement 1978-1983, edited by Horace G. Richards, William B. Gallagher, and Donald J. Colquhoun. [US\$22.50]

CERF Books:

Atlas of the Living Olive Shells of the World, by Edward J. Petuch and Dennis M. Sargent (ISBN 0-938415-00-X). xiii + 253p, 37 color plates (1986). [US\$68.50]

New Caribbean Molluscan Faunas, by Edward J. Petuch (ISBN 0-938415-01-8). 5 + 156p, 37 black & white plates (1987). [US\$38.50]

Journal of Coastal Research

CONTENTS

Editorial	Sherwood B. Idso	ii
Coastal Lagoons of East Anglia, U.K.	R.S.K. Barnes	417
Sediment Transport Prediction in a Tidal Inlet Using a Numerical Model: Application to Stony Brook Harbor, Long Island, New York, USA	Gary A. Zarillo and Moon-Jin Park	429
Comparison of Proximate Constituents in Two Seagrasses from the Gulf of Mexico, Florida Keys, and Belize, Central America	Rosalie J. Kramer and Clinton J. Dawes	445
Geomorphology of Dungeness Spit, Washington, USA	Maurice L. Schwartz, Paolo Fabbri and R. Scott Wallace	451
Change in Sedimentation Following River Diversion in the Eastman Estuary (James Bay), Canada	B. d'Angeljan and J. Basmadjian	457
Sediment Transport from Delaware Bay to the New Jersey Inner Shelf	Mary Jo Hall, Joseph E. Nadeau and Mark J. Nicolich	469
Source of Tidal Creek Sand on a Tide-Dominated Barrier Island, St. Catherines Island, Georgia— Fourier Shape Analysis	Stephen K. Kennedy and Ronald Pinkoski	475
Wave Attenuation Due to Bottom Friction across the Southwest Indian Continental Shelf	N.P. Kurian and M. Baba	485
Scrub Species Patterns on the Atlantic Coastal Ridge, Florida	Daniel F. Austin, Freda R. Posin and James N. Burch	491
Temporal Variation in Recruitment to a Fouling Community in Tampa Bay, Florida	William E. Bros	499
Holocene Eustatic Oscillations of the Baltic Sea Level	Ya. M. Punning	505
Tidal Sandbanks in Mar Chiquita Coastal Lagoon, Argentina	Néstor W. Lanfredi, Carlos F. Balestrini, Carlos A. Mazio and Sergio A. Schmidt	515
Subsurface Geology off Bombay with Paleoclimatic Inferences Interpreted from Shallow Seismic Profiles	G.C. Bhattacharya, F. Almeida, K.H. Vora and H.N. Siddiquie	521
Silica in Relation to Leaf Decomposition of <i>Juncus roemerianus</i>	Lionel N. Eleuterius and F.C. Lanning	531
Response of Coastal Plants to Increase in Submergence and Salinity	R.D. DeLaune, S.R. Pezeshki and W.H. Patrick, Jr.	535
