
THE COASTAL EDUCATION AND RESEARCH FOUNDATION

355 West Rio Road, Suites 202A-203D
Post Office Box 8068
Charlottesville, Virginia 22906-8068, USA

Officers of the Foundation

Founded in 1983 by: Charles W. Finkl, Sr., Charles W. Finkl, Jr., Rhodes W. Fairbridge, and Maurice L. Schwartz.

President & Associate Director:

Charles W. Finkl, Sr.

Vice President & Executive Director:

Charles W. Finkl, Jr.

Secretary-Treasurer:

Barbara J. Girouard

Board of Directors

Lucius H. Brasey, Jr.	Roy R. Lemon
Per Bruun	Robert E. Murdoch
Donald R. Coates	Edward J. Petuch
Rhodes W. Fairbridge	Maurice L. Schwartz
David W. Fischer	Andrew D. Short
Richard A. FitzGerald	Ian Watson
Larry Klingler	

The Coastal Education and Research Foundation [CERF] is a nonprofit corporation dedicated to the advancement of the coastal sciences. The Foundation is devoted to the multi-disciplinary study of the complex problems of the coastal zone. The purpose of CERF is to help translate and interpret coastal issues for the public and to assist professional research and public information programs. The Foundation specifically supports and encourages field and laboratory studies on a local, national, and international basis. Through the medium of scientific publications, television, and radio CERF brings accurate information to the public and coastal specialists on all aspects of coastal issues in an effort to maintain or improve the quality of shoreline resources.

Because CERF is concerned with broad environmental issues, our efforts concentrate on significant problems such as main-

tenance of good quality (potable) water with adequate supply, and hazards associated with potential beach erosion, flooding, and susceptibility of developed shorelines to storm surge and wave attack. By focusing attention on these potential man-made and natural hazards, it is hoped that our research efforts will help others improve the quality of life in diverse coastal areas. CERF thus aims to stimulate awareness of coastal (marine and freshwater shorelines) land and water problems; initiate and foster research and innovation to promote long-term coastal productivity; establish an educational forum for the debate of contentious coastal issues; and develop new principles and approaches for enlightened coastal management, and encourage their adoption and use.

CERF is associated with the Department of Geology at Florida Atlantic University in Boca Raton, Florida 33431, and the Department of Environmental Sciences, University of Virginia, Charlottesville, Virginia 22903. Internships for students at the University of Virginia provide "hands-on" experience with journal production and professional publishing in general. These associations provide a basis for cooperative investigation of biophysical resources found in open and naturally protected coastal regions, estuaries, large inland bodies of water bounded by shorelines, wetlands, and other coastal environments. Joint investigative efforts by faculty, students, and staff span a wide and diversified range of interrelated topics that are relevant to solutions of today's dynamic problems. It is hoped that these combined attempts to better understand the nature of coastal processes will help forestall what may become contentious issues of tomorrow.

CERF MEMBERSHIP

Members are individuals, institutions, and corporations that support the aims of the Foundation through personal and group efforts or by donations. Memberships are available in different categories with privileges.

Publications of the Foundation:

CERF Quarterly Journals:

Journal of Coastal Research (JCR): An International Forum for the Littoral Sciences (ISSN 0749-0208). [US\$50.00]

Current Titles in Ocean, Coastal, Lake & Waterway Sciences (ISSN 0883-4725). [US\$25.00]

Special Issues and Reports:

Journal of Coastal Research:

Special Issue No. 1 (1986): Late Quaternary Sea-Level Changes and Coastal Evolution, edited by Paolo Pirazzoli and John R. Suter. [US\$22.50]

Special Issue No. 2 (1986): Annotated Bibliography of Quaternary Shorelines, Fourth Supplement 1978-1983, edited by Horace G. Richards, William B. Gallagher, and Donald J. Colquhoun. [US\$22.50]

CERF Books:

Atlas of the Living Olive Shells of the World, by Edward J. Petuch and Dennis M. Sargent (ISBN 0-938415-00-X). xiii + 253p, 37 color plates (1986). [US\$68.50]

New Caribbean Molluscan Faunas, by Edward J. Petuch (ISBN 0-938415-01-8). 5+156p, 37 black & white plates (1987). [US\$38.50]

VOL. 3, NO. 3 (pages 269 – 416)

SUMMER 1987

CONTENTS

Editorial.....	Maurice L. Schwartz	ii
Effects of Surrounding Physical and Chemical Environment on the Spatial Heterogeneity in Phytoplankton Communities of Hiroshima Bay, Japan	Tetsuo Mukai	269
Assessment of the Hydraulics and Longevity of Wood End Cut (Inlet), Cape Cod, Massachusetts, USA.....	Gail M. Ashley	281
Amino Acid Dating of Quaternary Marine Terraces, Bahia Asunción, Baja California Sur, Mexico.....	Everly M. Keenan, Luc Ortlieb, John F. Wehmiller	297
A Reconnaissance and Geomorphological Study of Temoe Atoll, Gambier Islands (South Pacific).....	Paolo M. Pirazzoli	307
Late Quaternary Sea Levels along the Atlantic Coast of North America	Richard R. Pardi and Walter S. Newman	325
Beach Rock Ridges/Bands along a High-Energy Coast in Southwestern Australia—Their Significance and Use in Coastal History	V. Semeniuk and D.J. Searle	331
Response of Barrier Beaches along the Southwest Coast of India to Monsoonal Forcing	S. Prasann Kumar and C.S. Murty	343
Comparative Ecophysiological Studies on <i>Puccinellia maritima</i> and <i>Festuca rubra</i> , Bank End Marsh, Irish Sea, England.....	M.A. Zahran	359
Rock 'n' Roll in Mound Structures.....	Per Bruun	369
The Beach: Where Is the "River of Sand"?.....	William F. Tanner	377
