Journal of Coastal Research

An International Forum for the Littoral Sciences

Supporting Organizations

- International Union for Quaternary Research (INQUA): Commission on Quaternary Shorelines, The Holocene Commission, and The Neotectonics Commission.
- International Geological Correlation Program (IGCP) (supported by the International Union of Geological Sciences and UNESCO): Project No. 200 — Sea Level Correlations and Applications.
- The International Geographical Union (IGU): Commission on the Coastal Environment
- International Institute for Aerial Survey and Earth Sciences (ITC) [Enschede, The Netherlands]
- International Association for Biological Oceanography (IABO)
- International Association of Meiobenthologists (IAM)
- International Post-Graduate Training Courses on Fundamental and Applied Quaternary Geology (IFAQ) [Brussels, Belgium]
- The Coastal Society (TCS) [Bethesda, Maryland, USA]

Aims and Scope of the Journal

Journal of Coastal Research, an International Forum for the Littoral Sciences, is dedicated to all aspects of coastal research. These include geology, biology, geomorphology (physical geography), climate, littoral oceanography, hydrography, coastal hydraulics, environmental (resource) management, engineering, and remote sensing. Although each field functions effectively within its own purview, the cross-disciplinary nature of coastal studies requires familiarity with other fields as well. Hence, the scope of topics is necessarily broad in order to address the complexity of coastal biophysical and socio-economic interactions. Because of the wide range of interrelated topics, the journal invites original contributions and manuscripts dealing with theory, methodology, techniques, and field or applied topic studies on interdisciplinary coastal issues.

The journal encourages the dissemination of knowledge and understanding of the coastal zone by promoting cooperation and communication between specialists in different disciplines. Natural scientists, for example, are encouraged to collaborate with professionals in other fields to prepare contributions relating to the coastal zone that foster increased appreciation of coastal environments and processes. By means of this journal, with its scholarly and professional papers, systematic review articles, book and symposia reviews, communications and news, and special topical issues, an international forum for the development of integrated coastal research is provided.

Subscription Information

Editorial, Advertising and Publishing Office: Dr. Charles W. Finkl, Jr., Editor-in-Chief, Post Office Box 8068, Charlottesville, Virginia 22906-8068, USA. Telex: 4944447.

Published Quarterly in January, March, June, and September. *Annual Subscription Rate (1987):* \$ US35.00 (Student), \$ US50.00 (Personal), \$ US80 (Institution). Subscribers outside of the USA please add \$ US5 for surface postage or \$ US25 for airmail postage and handling to Europe and South America, \$ US28 to Australia, Africa, and the Far East. Single copy price: \$ US19. Back issues are available at current subscription rates.

THE JOURNAL OF COASTAL RESEARCH is surveyed in *Aquatic Sciences and Fisheries Abstracts; Current Awareness in Biological Sciences; Current Contents/Agriculture; Current Contents In Ocean, Coastal, Lake & Waterway Sciences; Biology & Environmental Sciences; Ecology Abstracts; GeoAbstracts; GeoScience Contents; Institute of Scientific Information (USSR); Marine Science Contents Tables; Oceanic Abstracts; Oceanographic Literature Review; Physics Abstracts; and Pollution Abstracts.*
