

*An international journal reporting research and new developments in all aspects of hydrology*

# HYDROLOGICAL PROCESSES

## An International Journal

### EDITOR-IN-CHIEF

**Professor Malcolm G. Anderson**  
Department of Geography  
University of Bristol  
Bristol BS8 1SS, UK

### ASSOCIATE EDITORS

**Dr George M. Hornberger**  
Department of Environmental Sciences  
Clark Hall, University of Virginia  
Charlottesville  
Virginia 22903, USA

**Professor Des Walling**  
Department of Geography  
University of Exeter  
Exeter EX4 4RJ, UK

### EDITORIAL BOARD

**Dr B. Ambrose**  
Université Louis Pasteur  
Strasbourg, France

**Dr K.J. Beven**  
University of Lancaster, UK

**Dr O. Bricker**  
US Geological Survey  
National Center, Reston, USA

**D. J. Bouma**  
Agricultural University  
Wageningen, The Netherlands

**Professor Liu Changming**  
Institute of Geography  
Academia Sinica, Beijing  
People's Republic of China

**Dr S. Colbeck**  
US Army Cold Regions Laboratory  
Hanover, USA

**Dr E.T. Engman**  
USDA-ARS, Hydrology Laboratory  
Beltsville, USA

**Professor D. Hillel**  
University of Massachusetts, USA

**Professor I. Kayane**  
Institute of Geoscience  
The University of Tsukuba, Japan

**Dr I.D. Moore**  
University of Minnesota, USA

**Dr E.M. Morris**  
Institute of Hydrology  
Oxfordshire, UK

**Professor L. Oyebande**  
University of Lagos, Nigeria

**Dr A.J. Pearce**  
Forest Research Institute  
Christchurch, New Zealand

**Professor D.H. Pilgrim**  
School of Civil Engineering  
University of New South Wales  
Australia

**Dr M. Sklash**  
University of Windsor  
Ontario, Canada

**Professor Dr I. Simmers**  
Institut voor Aardwetenschappen  
The Netherlands

**Dr D.B. Stephens**  
New Mexico Institute for Science and  
Technology, USA

### AIMS AND SCOPE

*Hydrological Processes* is an international journal devoted to the rapid publication of scientific and technical papers on hydrology. The essential thrust of the journal is towards environmental hydrology. Field processes and their modelling and forecasting are emphasized. Original research papers on physical, chemical and mathematical hydrology are included, together with review articles and short communications. Computer listings, where appropriate, will be accepted for publication as a constituent part of a research paper.

The Journal covers a broad field of research including those topics listed below and will relate to both the developed and developing world:

- Evapotranspiration
- Field instrumentation (both hillslope and channel)
- Runoff processes
- Catchment and watershed experiments
- Catchment modelling (both statistical and mathematical)
- Water quality and water chemistry
- Snow and ice hydrology
- Arid and semi-arid hydrology
- Erosion and sediment yield
- Solute transport in the unsaturated zone
- Groundwater

### RECENTLY PUBLISHED PAPERS

The Response of Headwater Stream Channels to Urbanization in the Humid Tropics — F.S. EBISEMLU

Experimental Analysis of Reservoir Release Wave Routing in Upland Boulder Bed Rivers — D.J. GILVEAR

The Nature of Iron and Manganese Species in Dam Waters — B. CHISWELL and M. ZAW

Measurement and Analysis of Depression Storage on a Hillslope — J. SNEDDON and T.G. CHAPMAN

Sea-Salt Induced Streamwater Acidification — S.J. LANGAN

Calibration and Use of Pressure Transducers in Soil Hydrology — J.F. DOWD and A.G. WILLIAMS

### SUBSCRIPTION DETAILS

*HYDROLOGICAL PROCESSES* is published quarterly  
Volume 3 (1990) UK £90.00 Elsewhere US \$165.00  
(Prices include postage, packing and handling charges worldwide)

**For a free sample copy and/or full details of this journal, please write to either of the address below**

Dept AC, John Wiley & Sons Ltd, Baffins Lane, Chichester,  
West Sussex PO19 1UD, UK  
Subscription Dept C, John Wiley & Sons Inc, 605 Third Avenue,  
New York, NY 10158, USA

# SYMPOSIUM ON Coastal Geomorphology Littoral Drift Climate Development Greenhouse Effects Sea Level Rise and Its Consequences Erosion and Protection

CALL FOR INDICATION OF INTEREST IN PARTICIPATION IN THE SKAGEN INTERNATIONAL SYMPOSIUM ON COASTAL GEOMORPHOLOGY, CLIMATE DEVELOPMENT, SEA LEVEL RISE, EROSION AND PROTECTION.

Name and Title: \_\_\_\_\_  
 Affiliation if any: \_\_\_\_\_  
 Address: Street \_\_\_\_\_  
 Town \_\_\_\_\_  
 Zip Code and Country: \_\_\_\_\_

## REGISTRATION

Registration Fee for Participation is DCR 2,000 or US Dollar 500.

- I will appreciate more information as planning proceeds.
- I plan to present paper on topic: \_\_\_\_\_
- I consider participation in the Excursion Trip upon the receipt of more detailed information.
- I consider participation in the Study Tour but not in the Symposium.
- I will be accompanied by \_\_\_\_\_

DO NOT USE THIS FORM IF YOU ALREADY DID IT EARLIER.

PLEASE MAIL THE INFORMATION TO:

SK SYM 1990  
 TOWN HALL  
 SKAGEN  
 9990 DENMARK  
 (Air Mail)

September 2-5, 1990  
 SKAGEN, DENMARK

## Officers of the Foundation

Founded in 1983 by: Charles W. Finkl, Sr.,  
Charles W. Finkl, Jr., Rhodes W. Fairbridge,  
and Maurice L. Schwartz.

### President & Executive Director:

Charles W. Finkl, Jr.

### Vice President-Treasurer:

Charles J. Miller

### Secretary:

Mark Grochowski

### Board of Directors

Per Bruun	Roy R. Lemon
Donald R. Coates	Robert E. Murdoch
Robert Dolan	Maurice L. Schwartz
Rhodes W. Fairbridge	Andrew D. Short
Robert Huff	Ian Watson
Larry Klingler	

issues, our efforts concentrate on significant problems such as maintenance of good quality (potable) water with adequate supply, and hazards associated with potential beach erosion, flooding, and susceptibility of developed shorelines to storm surge and wave attack. By focusing attention on these potential man-made and natural hazards, it is hoped that our research efforts will help others improve the quality of life in diverse coastal areas. CERF thus aims to stimulate awareness of coastal (marine and freshwater shorelines) land and water problems; initiate and foster research and innovation to promote long-term coastal productivity; establish an educational forum for the debate of contentious coastal issues; and develop new principles and approaches for enlightened coastal management, and encourage their adoption and use.

CERF is associated with the Department of Geology at Florida Atlantic University in Boca Raton, Florida 33431. This association provides a basis for cooperative investigation of biophysical resources found in open and naturally protected coastal regions, estuaries, large inland bodies of water bounded by shorelines, wetlands, and other coastal environments. Joint investigative efforts by faculty, students, and staff span a wide and diversified range of interrelated topics that are relevant to solutions of today's dynamic problems. It is hoped that these combined attempts to better understand the nature of coastal processes will help forestall what may become contentious issues of tomorrow.

### CERF MEMBERSHIP

Members are individuals, institutions, and corporations that support the aims of the Foundation through personal and group efforts or by donations. Memberships are available in different categories with privileges.

---

The Coastal Education and Research Foundation (*CERF*) is a nonprofit corporation dedicated to the advancement of the coastal sciences. The Foundation is devoted to the multi-disciplinary study of the complex problems of the coastal zone. The purpose of *CERF* is to help translate and interpret coastal issues for the public and to assist professional research and public information programs. The Foundation specifically supports and encourages field and laboratory studies on a local, national, and international basis. Through the medium of scientific publications, television, and radio *CERF* brings accurate information to the public and coastal specialists on all aspects of coastal issues in an effort to maintain or improve the quality of shoreline resources.

Because *CERF* is concerned with broad environmental

## Publications of the Foundation:

### CERF Quarterly Journal:

*Journal of Coastal Research (JCR): An International Forum for the Littoral Sciences* (ISSN 0749-0208). [US\$50.00] (Personal Rate)

### Special Issues and Reports:

*Journal of Coastal Research:*

**Special Issue No. 1** (1986): Late Quaternary Sea-Level Changes and Coastal Evolution, edited by Paolo Pirazzoli and John R. Suter. [US\$22.50](out of print)

**Special Issue No. 2** (1986): Annotated Bibliography of Quaternary Shorelines, Fourth Supplement 1978-1983, edited by Horace G. Richards, William B. Gallagher, and Donald J. Colquhoun. [US\$22.50](out of print)

**Special Issue No. 3** (1988): Dune/Beach Interaction, edited by Norbert P. Psuty. [US\$15.00]

**Special Issue No. 4** (1988): The Effects of Seawalls on the Beach, edited by Nicholas C. Kraus and Orrin H. Pilkey. [US\$37.00]

**Special Issue No. 5** (1989): High Concentration Cohesive Sediment Transport, edited by Ashish Mehta and Earl J. Hayter. [US\$37.00]

**Special Issue No. 6** (1990): Artificial Beaches, edited by Maurice L. Schwartz and Eric C.F. Bird. [US\$37.00]

**Special Issue No. 7** (1990): Rational Design of Mound Structures, edited by N. Kobayashi and M.A. Losada. [US\$37.00]

### CERF Books:

*Atlas of the Living Olive Shells of the World*, by Edward J. Petuch and Dennis M. Sargent (ISBN 0-938415-00-X). xiii + 253p, 37 color plates (1986). [US\$68.50]

*New Caribbean Molluscan Faunas*, by Edward J. Petuch (ISBN 0-938415-01-8). 5 + 156p, 37 black & white plates (1987). [US\$38.50]

*Neogene History of Tropical American Mollusks*, by Edward J. Petuch (ISBN 0-938415-02-6). 217p, 80 plates (1988). [US\$64.95]

*Field Guide to the Ecphoras*, by Edward J. Petuch (ISBN 0-938415-03-4). 144p, 66 plates (1989). [US\$21.50]
