

JCR Page Charge Policy

Because some authors might experience undue hardship meeting the costs of our recently imposed page charges, the trustees of CERF, and the publisher of the JCR, have decided to waive the mandatory page charges.

**We Are Pleased to
Announce
Our Policy on
Voluntary Page
Charges!**

The page charges which were to be \$70.00 per page for non-members and \$50.00 per page for members of CERF (The Coastal Education and Research Foundation), are now solicited on a voluntary basis.

By way of an additional comment, because few people voluntarily paid for their excessive AAs (author alterations), i.e. more than one AA per two printed journal pages, Allen Marketing and Management (AMM) will directly invoice authors for excessive AAs at the rate of \$3.50 per change.

We thank you for your patronage, interest, and understanding as we all work together to make our Journal the best we can. If you have suggestion for improvement of the JCR, please do not hesitate to contact me directly.

Sincerely yours,
Charles W. Finkl
Editor-in-Chief, Journal of Coastal Research

THE COASTAL EDUCATION AND RESEARCH FOUNDATION

Post Office Box 210187
Royal Palm Beach, FL 33421, USA

1656 Cypress Row Drive
West Palm Beach, FL 33411, USA

Officers of the Foundation

Founded in 1983 by: Charles W. Finkl, Sr.,
Charles W. Finkl, Jr., Rhodes W. Fairbridge,
and Maurice L. Schwartz

President & Executive Director: Charles W. Finkl, Jr.
Vice President: Rhodes W. Fairbridge

Secretary-Treasurer: Charles J. Miller (Deceased)

Board of Directors

P. Bruun	R. P. Paskoff
J.-C. Dionne	M. L. Schwartz
R. Dolan	I. Shennan
T. Healy	A. D. Short
D. Hopley	D. J. Stanley
R. Huff	

The Coastal Education and Research Foundation (*CERF*) is a nonprofit corporation dedicated to the advancement of the coastal sciences. The Foundation is devoted to the multi-disciplinary study of the complex problems of the coastal zone. The purpose of *CERF* is to help translate and interpret coastal issues for the public and to assist professional research and public information programs. The Foundation specifically supports and encourages field and laboratory studies on a local, national, and international basis. Through the medium of scientific publications, television, and radio *CERF* brings accurate information to the public and coastal specialists on all aspects of coastal issues in an effort to maintain or improve the quality of shoreline resources.

Because *CERF* is concerned with broad environmental issues, our efforts concentrate on significant problems such as maintenance of good quality (potable) water with adequate supply, and hazards associated with potential beach erosion, flooding, and susceptibility of developed shorelines to storm surge and wave attack. By focusing attention on these potential man-made and natural hazards, it is hoped that our research efforts will help others improve the quality of life in diverse coastal areas. *CERF* thus aims to stimulate awareness of coastal (marine and freshwater shorelines) land and water problems; initiate and foster research and innovation to promote long-term coastal productivity; establish an educational forum for the debate of contentious coastal issues; and develop new principles and approaches for enlightened coastal management, and encourage their adoption and use.

CERF is associated with the Department of Geography and Geology at Florida Atlantic University in Boca Raton, Florida 33431. This association provides a basis for cooperative investigation of biophysical resources found in open and naturally protected coastal regions, estuaries, large inland bodies of water bounded by shorelines, wetlands, and other coastal environments. Joint investigative efforts by faculty, students, and staff at various institutions span a wide and diversified range of interrelated topics that are relevant to solutions of today's dynamic problems. It is hoped that these combined attempts to better understand the nature of coastal processes will help forestall what may become contentious issues of tomorrow.

☐ CERF MEMBERSHIP ☐

Members are individuals, institutions, and corporations that support the aims of the foundation through personal and group efforts or by donations. Memberships are available in different categories with privileges.

Publications of the Foundation:

CERF Quarterly Journal:

Journal of Coastal Research (JCR) (ISSN 0749-0208).

JCR Special Issues and Reports:

- No. 1 (1986): Late Quaternary Sea-Level Changes and Coastal Evolution (out of print)
- No. 2 (1986): Annotated Bibliography of Quaternary Shorelines, Fourth Supplement 1978-1983 (out of print)
- No. 3 (1988): Dune/Beach Interaction, Norbert P. Psuty (ed.). [US\$ 45.00]
- No. 4 (1988): The Effects of Seawalls on the Beach, N. C. Kraus and O. H. Pilkey (eds.). [US\$ 45.00]
- No. 5 (1989): High Concentration Cohesive Sediment Transport, A. J. Mehta and E. J. Hayter [US\$ 45.00]
- No. 6 (1990): Artificial Beaches, M. L. Schwartz and E. C. F. Bird (eds.). [out of print]
- No. 7 (1990): Rational Design of Mound Structures, N. Kobayashi and M.A. Losada (eds.). [US\$ 45.00]
- No. 8 (1991): Impacts of Hurricane Hugo: September 10-22, 1989, C. W. Finkl and O. H. Pilkey (eds.). [US\$ 45.00]
- No. 9 (1990): Proceedings of the Skagen Symposium (September 1990) [out of print]
- No. 10 (1992): Simplified Technical Summary of the Complete Delta Works [out of print]
