

## CHRISTIN COATS

Faculty Advisor: Dr. Jill Pable  
The College of Interior Design

---

These renderings were created based on a particular project in the Interior Design Graphics II and Studio II classes. Inspirations for each are based on the client's needs and individual style. If a client is not presented, we invent our own, which is usually based on our own personal style.

As a designer, I've developed my style based on the environment I have been exposed to, including the beaches of my hometown of Jacksonville, Florida, and the historic elegance of Savannah, Georgia. In turn, my style tends to be a mix of traditional, with a light, airy, and comfortable feeling.
